What do FVTC grads say about their program?

Great teachers that care. Always got back to me in a timely manner when I had questions.

FVTC gave me a well-rounded understanding of the IT industry and helped to provide me with the skills necessary to start my new job with confidence.

My education landed me my job which I'm very happy with. The people at FVTC were very open and accepting - especially regarding work schedules.

FVTC had a wonderful hands-on program that helped provide me with necessary experience to get into my dream job field. I felt ahead of certain students who graduated elsewhere who had the theory down but lacked hands-on experience. This is incredibly important.
