Lori Eaton
920-731-7703
jeanettec@employs.com

Argus Technical Services is a full service staffing agency specializing in Manufacturing. From the front door to the shipping door and everywhere in between, Argus is committed to providing the manufacturing industry with qualified permanent or temporary personnel while aiming to connect job-seekers with positions that match their skills and ambitions. Many of the best job openings in the manufacturing field are often unadvertised. Through our 30 plus years of experience working with the manufacturing industry in Wisconsin, Argus has developed relationships that allow us access to many of these positions.

Technical: Engineering, Design and Drafting, Quality Control, Scheduling, Purchasing, and other specialized technical support roles.
Our technical side serves Mechanical, Electrical, Industrial, Welders, Fabricators, Mechanical and Electrical Assemblers, CNC and, Manual Machinists and other specialized manufacturing positions.
Semi-Skilled: Machine Operators, Shipping & Receiving, Assemblers, Shop Helpers and more.
Operational Support: Administrative Assistants, Accounting, AP/AR, Buying/Purchasing, Managers, Supervisors, Customer Service and other manufacturing support positions.
At AriensCo, we build more than exceptional products - we create opportunities that impact careers. Our culture values innovative thinking, hard work and determination. We interact in teams, collaborate together and make decisions quickly. We see growth potential in every team member, and are committed to supporting our employees with continuous training and advancement opportunities. Our environment? We're corporate, without being "corporate." Whether you work at our headquarters, manufacturing facilities, or one of our global distribution businesses, you'll always have the freedom to create and contribute. Our company vision is "Passionate People, Astounded Customers." Quite simply: it revolves around people.

Speaking of people, you're not just employee #1,762 to us. You're family and your role is invaluable. Without exceptional people, we can't continue to produce the amazing products we're known for around the world.

Ready for the ride of your career? Then come join us. By joining our team, you'll have the opportunity to work in a rewarding workplace with a strong sense of community.

AZCO, Inc.

AZCO INC. is an employee-owned, full service industrial constructor and fabricator, capable of self-performing a wide range of general construction and mechanical services. Headquartered in Appleton, Wisconsin, with offices in Colorado, AZCO performs its work throughout the United States serving the power generation, refinery and petrochemical, food and beverage, general manufacturing, and pulp and paper industries.

As a full-service industrial constructor, AZCO INC. provides a wide range of general construction and mechanical services such as new power plant construction, turbine setting and maintenance, boiler installation and repair, power and process piping installation and fabrication, structural steel installation, electrical and instrumentation, carbon, stainless and chrome-moly pipe fabrication, environmental compliance work, equipment setting and rigging and foundry construction and maintenance.

Mechanical Technician Intern
| **Becks Quality Cabinets** | Becks Quality Cabinets was founded in 1986, by Gerald Becks in his small garage with the dream of crafting the best cabinetry in the cabinet making industry. As a seasoned cabinet maker and installer from a previous cabinet making company, he had the great vision to build upon what he had learned over his 15 years’ experience. August 1st, 1990 Gerald moved Becks Quality Cabinets from that small garage to its current location. In 1992 Gerald’s son Lucas started working as part time summer help at Becks Quality Cabinets after showing great interest in the cabinet making trade for several prior years. In 1998 Lucas started working full time for Becks Quality Cabinets and to this day his passion for crafting the best cabinetry in the cabinet making industry continues. Gerald has begun his path to retirement and his son Lucas has taken over ownership and operational responsibility, making it a family owned company to this day and continuing that legacy of "Quality". |

ABOUT US:
Since 1967 Fastenal has grown as a distributor of industrial and construction supplies from a single branch to approximately 3,000 servicing locations, each providing tailored local inventory and personal service for our customers. As we've expanded across the world, we've retained a core belief in people and their ability to accomplish remarkable things - if given the opportunity. From this philosophy stems an entrepreneurial culture that challenges every employee to run their own business, create their own success, and advance to become company leaders.

As a growth company with a solid financial position, we are committed to training, promoting from within, and creating opportunities for our employees. If you have an entrepreneurial spirit and are looking to make your mark as part of an elite growth company, you won't find a better fit than Fastenal.

Innovative Machine Specialists, Inc.
1907 Laemle Ave.
Marshfield, WI 54449

Molly Schecklman
(715) 389-1511
mollys@innmacspe.com

Juggling multiple vendors for engineering, machining, fabricating, and assembly is a thing of the past for our customers. Choosing Innovative Machine Specialists as your single source supplier will assure you the confidence of knowing that with one call your manufacturing and machining needs will be met. That is our commitment to you!

Since 1996 Innovative Machine Specialists, Inc. has been driven to help customers attain their manufacturing and machining goals. Today our commitment to reliability, quality and complete customer satisfaction remains our strongest asset.

Many times the words "machine shop" conjures up the definition of a small operation with limited capabilities. Although some may categorize us as a "machine shop" this does not adequately describe what we do on a daily basis.

Within our two facilities, we are able to work with a wide variety of materials including:

- Stainless Steel
- Aluminum
- Carbon Steel
- Alloys
- Tool Steel
- Plastics
- Brass
- Exotic Alloys
- Dairy/Food Grade Specifications

Located in Marshfield, Wisconsin, Innovative Machine Specialists is centrally located to allow for quick delivery of materials and finished projects.

Machinist – Mill, Welder/Fabricator, Manual Lathe Operator
At Jacobs, our focus on building long-term client relationships has helped us become one of the largest and most diverse companies in our industry. Today, our employees around the world provide a broad range of technical services to our industrial, commercial and government clients in multiple industries.

With 2018 revenues of nearly $18 billion, we offer full-spectrum support to industrial, commercial, and government clients. Services include scientific and specialty consulting, as well as all aspects of engineering, architecture, construction, program & construction management, and operations & maintenance.

More than 90 percent of our work is repeat business. That commitment to client value and partnership produces consistent cost advantages, profits and growth, allowing us to attract and retain the industry's top talent. Our strict dedication to Safety and uncompromising Ethics & Integrity create a work environment that promotes employee progress and helps grow our business.

Jacobs is listed in the S&P 500 stock market index, and traded on the New York Stock Exchange under the symbol JEC. Our headquarters is located in Dallas, Texas.

North Central Utility specializes in Semi-Trailer Sales, Heavy-Duty Parts, and Trailer Service & Repair. The company started as Badger Utility in Madison, WI in 1976. Since then it has grown to include 6 locations in Wisconsin as well as locations in Fargo, ND, North Mankato, MN and Rogers, MN.

During this growth, Badger Utility of Wisconsin purchased the Utility Trailer sales territory in early 2014, for Minnesota and North Dakota, and named it North Central Utility.

With the name North Central Utility representing the north central region of the United States, Badger Utility was renamed North Central Utility and the company now covers all of Wisconsin, Minnesota, and North Dakota.

The future for North Central Utility will be built on the same principles that have brought Badger Utility to where it is today. The company will continue to focus on superior customer service, standing behind the sale, and growing relationships with its customers.

ONLINE Engineering is the leading manufacturer of production equipment for the diagnostic culture media industry. We design and manufacture filling systems for petri dishes, test tubes, dipslides, vials, and bottles. Today we are serving over a hundred customers in 36 countries throughout the world.

Operating since 1947, we are a full service electrical/mechanical, construction, and service company with divisions based in Wisconsin with affiliates throughout the United States. Pieper is a large contractor divided into small, highly specialized units, offering today's widest range of services in electrical and mechanical, plumbing & HVAC, data/comm., automation & controls, energy management, and underground construction. Our expertise allows us to serve as a powerhouse in the industrial, residential, and commercial settings. Pieper Electric, Inc. is an employee owned company which also does business as Pieper Automation, Ideal Mechanical, and Spring City Electric through a network of locations that service both Wisconsin and Illinois.

At Pierce Manufacturing, we build trucks that live up to your demands. It's not some nine-to-five-go-home-and-forget-about-it kind of thing. Too much rides on what you do. To our team, there is no room for anything less than the absolute best.

What began in 1913, building truck bodies on Model T Ford chassis in an old converted church, has evolved to creating highly customized, carefully designed and engineered pumpers, aerials, tankers and rescue units that have no equal.

Behind every Pierce truck is a team of professionals whose mission is to build your truck, exactly how you ordered it. To us, every step of the process is personal; from innovation and expertise, to the customization and service. When the best people you know are the very people you serve, there is only room for exceptional.
Since 1979, Plexus has been partnering with companies to create the products that build a better world. We are a team of over 19,000, providing global Design and Development, Supply Chain Solutions, New Product Introduction, Manufacturing, and Aftermarket Services. Plexus is a global leader that specializes in serving customers in industries with highly complex products and demanding regulatory requirements. Plexus delivers customer service excellence to leading global companies by providing innovative, comprehensive solutions throughout the product’s lifecycle.

W7824 Smith Street  
Shiocton, WI 54170

**Janet Delzer**  
920-986-1145  
jdelzer@scsllcwi.com

"Sawdust included", is a phase we commonly use. Every Go Fast machine is tested before shipment to ensure that it will perform for our customers. Our products are built stronger and will run faster. If we don’t already make a machine for your needs we will custom design one. Going faster for less is proven amongst our existing customers. We are here to help our customers building machinery for sawmills, pallet operations, and general industry. Some of our products include but are not limited to: band resaws, lumber grade systems, end trimmers, chop saws, firewood processors, firewood wrappers, notchers, dusters, stacking racks, and material handling conveyors/ chains.

For more than 30 years Stainless Unlimited Inc. dba Stainless Piping Specialist (SPS) has been a dependable contract manufacturer in the stainless piping market. We are committed to providing our customer with the best product for their requirements. We seek out customers that have custom stainless piping needs in a variety of markets. SPS specializes in highly custom and complex manifolds and spools mainly in the fire/crash truck rescue and water purification markets. Stainless Piping Specialist, founded in 1984, and continues to exceed our customer expectations today.

Switchgear Power Systems was founded in 2007 as a manufacturer of power distribution and control equipment. We manufacture primarily medium voltage equipment and enclosures (5-38kV), with applications in the utility, heavy industrial, renewable energy markets. Our equipment is found throughout the United States and the world, including Neenah, Green Bay, and Milwaukee locally and Sweden, South Korea, and Mexico globally.

We make private label food and beverages across North America and Italy for retail grocery, foodservice and industrial customers. Private label presents an opportunity to address and satisfy emerging consumer needs. Simply put, we are the supply chain for our customers' brands. We invite you to explore and learn about our organization and the exciting opportunities at TreeHouse Foods.
Trilliant Food & Nutrition, formerly Victor Allen's Coffee, headquartered in Little Chute, Wisconsin, has been a pioneer in the U.S. specialty coffee market since 1979. We have used our years of experience and skill in the traditional coffee segment to produce one thing: great coffee. We continually strive to be the best in coffee selection, precision roasting and brewing. Today, Trilliant Food offers three distinctive brands - Victor Allen's Coffee™, Rio Grande Roasters™ and Thirstix™ as well as private label, customizable products for our customers. In order to keep up with consumer demand, Trilliant Food & Nutrition has continued to make advances and improvements and has expanded into numerous distribution channels and regions throughout the country including retailers, foodservice distributors and coffee houses. Learn more about our growing company at www.Trilliantfood.com.

Tweet/Garot Mechanical, Inc. is a mechanical contracting company with offices in De Pere and Wisconsin Rapids, Wisconsin. Tweet/Garot has been in business since 1897. Our business involves the design, engineering, fabrication and installation of plumbing, heating, air conditioning systems, and process and boiler piping, as well as building automation services. We also design, manufacture and install food processing equipment. We service what we install by providing our customers with a full range of HVAC and plumbing service and maintenance. Tweet/Garot Mechanical is an EEO Employer. Tweet/Garot's MISSION is to design and build high-quality mechanical solutions with extraordinary customer service, the industry's best-trained workforce, and a total commitment to innovation and continuous improvement.
