Total Fee	\$3,395.00	\$3,395.00	\$2,995.00	\$2,995.00

Due to FVTC preferred partner status with ASCM, Boeing employees who register with FVTC for a course will save compared to the individual market prices on the accompanying APICS learning system (tech fee), and course bundles (FVTC package) which include the learning system and an exam credit (only available to ASCM Certification Upgrade members.) The FVTC Package is the best value overall with significant savings for those who wish to purchase the online course, learning system, and exam credit in one transaction.

*First ASCM CTSC class will begin March 11, 2024. ASCM does NOT sell the CTSC exam separately and Tech/Materials for CTSC are only digital.
