Policy Title: **TRAVEL**

This policy provides guidelines for employees traveling within the United States on College business, including local travel. (Employees traveling internationally should refer to the International Travel policy.) Note that some grants include their own travel guidelines. Where they differ, the guidelines of the grant will take precedence over this policy.

Travel Procedures can be found on the [Financial Services Travel Information](#) page.

This policy is not intended to cover every possible situation. Please contact Accounts Payable for clarification as needed.

**Employee Responsibilities & Compliance**

Employees must submit all forms and detailed, itemized receipts related to their travel within a timely manner and may delegate responsibility for preparation of the forms. The employee always retains accountability of travel expenses. Employees must notify Accounts Payable of any cancellations and/or refunds for items purchased directly by the College.

**Travel Authorization**

All travel requires prior authorization from an employee’s manager and/or the manager whose budget is impacted. Travel arrangements should only be made after approval has been received. For professional growth activities, an External Professional Growth form is required before travel arrangements are made.

**Reimbursement Requests**

In order to receive reimbursement for expenses, complete an Employee Expense Report form upon completion of the trip or after expenses are incurred and have it signed by the appropriate manager. Requests for reimbursement should be submitted to Financial Services as soon as possible and no later than either 60 days after the trip occurred or funding source closes, whichever is sooner. The College reserves the right to deny reimbursement for delinquent requests.

**Receipts**

Detailed, itemized receipts are required for all expenses except for meals and incidental expenses (M&IE) which are reimbursed on a per diem basis. (See section Meals.)

**Manager Responsibilities**

Managers are ultimately accountable for the conservative use of College funds and must verify that all travel is budgeted and expenditures are charged appropriately. The employee’s immediate supervisor or designee must sign each expense report, confirming that all travel expenses were necessary, reasonable, and consistent with this policy.
Types of Expenses

A. Registration Fees
Fees for conferences can be paid for utilizing your department’s purchasing card (P-Card), the College’s purchasing card (contact Accounts Payable), or by paying for the registration fee personally and requesting reimbursement upon completion of the event.

B. Transportation
While there are several acceptable methods of business transportation, employees are expected to use the most cost-effective method possible. For assistance in determining the most cost-effective transportation method, please contact Accounts Payable.

1. College Fleet Vehicles
Use of the College’s fleet vehicles is the preferred mode of transportation. See the College Vehicle Policy and the College Fleet Vehicle Procedures for more details.

2. Rental Vehicles
When a College Fleet Vehicle is not available, car rental is generally the preferred mode of transportation. For out of state travel, employees may use a rental car when other transportation is not available or when the use of a rental car provides cost savings. If a taxi, shuttle, subway or courtesy transportation is available to bring the employees to his/her final business destination, then a rental car shouldn’t be used.

Type of Vehicle
The size of the rental car should be the least expensive model consistent with the number of employees and the business requirements of the trip. Minivans and SUVs should be used only if transporting large or bulky material or if four or more individuals are traveling together. Employees should never rent a 15-passenger van.

Insurance
The College’s insurance policy provides coverage for car rentals (except for 15 passenger vans) within the United States, so it is not necessary to purchase additional insurance offered by the rental agencies. If purchased, this cost will not be reimbursed.

Gasoline
The direct cost of gasoline will be reimbursed. Employees must fill the car with gasoline prior to returning it to the rental agency (the re-fueling option should not be elected).

3. Personal Vehicles
Employees may use personal vehicles for official business travel when necessary and cost effective. Personal vehicles are not covered under the College’s insurance policy. Any loss incurred while using a personal vehicle for College business will fall under the employee’s personal insurance coverage and will not be reimbursed.

Reimbursement will be at the current IRS mileage rate and based on actual starting and ending locations. When the starting or ending location is your home, mileage will be...
reimbursed at the lesser of the actual miles driven or the mileage between your assigned
campus location (as defined in the Employee Handbook) and the designated location.
Expenses associated with normal commuting between an employee’s home and regular place
of business are not reimbursable.

Additional reimbursement will be made for tolls and reasonable parking fees with receipts.

Employees will not be reimbursed for tickets, fines or traffic violations. No reimbursement
will be made for vehicle repair costs regardless of whether it results from the employee’s act
or acts of others.

4. Air Travel
Airline tickets should be purchased through the College’s designated travel agency, which is
charged directly to the College. Airline tickets purchased with personal funds will be
reimbursed after the trip along with the other travel expenses to avoid additional processing
costs and possible duplication of payment. The College will only pay for the cost of coach
accommodations.

Miscellaneous Airline Charges (Ticket Changes/Cancellations, Seat Assignment, Flight
Internet Access, etc.)
The College will pay for reasonable airline charges if approved by the manager. Document
the business purpose for each additional fee in order to be reimbursed.

Baggage Charges or Lost Baggage
Employees will be reimbursed for any charges imposed by the airline for the first item of
luggage. Excess baggage charges will be reimbursed only when traveling with heavy, bulky
material or equipment that is required for business purposes. The College will not reimburse
employees for personal items lost while traveling on business as airlines bear this
responsibility.

Airline Frequent Flyer Programs
Employees may retain frequent flyer program benefits for their personal use. However,
participation in these programs must not influence flight selection which would result in
higher airfare. The College will not reimburse employees for tickets purchased with frequent
flyer miles even if those tickets are purchased for business reasons.

Airline Boarding Compensation
Airlines occasionally offer free tickets or cash allowances to compensate for delays due to
overbooking, flight cancellations or changes. Employees may volunteer for boarding
compensation only if the delay in their trip will not result in any interruption of business or
any additional costs to the College. Employees may keep the compensation for their own
personal use.
**Airport Delays**
The College will reimburse employees for reasonable expenses such as additional hotel and per diem costs incurred due to flight delays and cancellations that are beyond the employee’s control. Include a brief description of the circumstances with the Employee Expense Report.

5. **Other Transportation (Taxi, Shuttle, Rail, Subway, Metro, Bus, Car Services)**
Costs of transportation with reasonable tips will be reimbursed with a receipt. These expenses are allowed for transportation to, from, and between places of business, lodging, and the airport. Travel by limousine is generally not an acceptable mode of business travel. If utilized, documentation must be provided to justify this decision. Courtesy transportation should be utilized whenever possible.

C. **Lodging**
The College will pay actual reasonable room costs, as supported by the detailed hotel bill, for each night that lodging away from home is required for business purposes.

1. **Cancellations**
If it is necessary to change or cancel guaranteed reservations, it is the responsibility of the employee to cancel the reservation. The College will not reimburse any charges or fees assessed due to failure to cancel a reservation.

2. **Lodging in a Private Residence**
Payments to individuals for lodging at their personal homes are not reimbursable.

D. **Meals**
The College will reimburse employees for meal and incidental expenses (M&IE) incurred during official business travel using the per diem rates established by the federal government’s General Services Administration (GSA). The rate includes meals, tips and incidentals such as fees for food and luggage-handling type services.

If a meal is provided as part of a hotel complimentary breakfast, sponsored training session, conference, or meeting, the employee must deduct the per diem for that meal(s) from their per diem for that day. If a meal is provided by a conference as part of the registration fee and an employee elects to purchase a meal independent of the conference, such meals will be considered a personal expense and will not be reimbursed.

In the event an employee travels to multiple cities and states during the same day of travel, the meal allowance for that day will be based upon the city where the employee spends the night.

In situations where business travel is combined with personal travel, reimbursement for meals will be limited to expenses incurred on days of official business. Travel days should be calculated as if the personal travel did not exist.

E. **Business Meals**
Business meals are defined as meals taken with colleagues, students, donors or individuals from outside organizations during which specific College business takes place. These meals may
occur locally or while in travel status. When two or more employees are traveling and dine together, the fact that they are dining together does not constitute a business meal. Please see the College’s Business and Meeting Meals policy for more details.

F. Tipping
Tipping should be reasonable; no more than 25% will be reimbursed.

Extended Stay/Combining Business and Personal Travel
Employees may extend their travel or combine personal travel with business travel, provided the related time and expenses do not result in additional costs to the College. Incremental expenses incurred by family members or personal guests are not reimbursable.

When an employee deviates from the most direct travel route for personal reasons, reimbursement may not exceed the cost of the most direct route. Reimbursement for meals, lodging and other expenses will be limited to expenses incurred on days of official business and should be calculated as if the personal travel had not occurred.

Policy Exceptions
Exceptions to this policy may be made in special circumstances or when in the best interest of the College. These exceptions should be infrequent and require the written approval of a member of the Executive Team or the College President.
