

Six Sigma Green Belt Certificate

Fox Valley Technical College offers an affordable, efficient method to achieve Six Sigma Green Belt certification while understanding the demands of the working adult. The series features 54 hours of interactive classroom training and 32 hours of online learning. Immediately apply Six Sigma and lean skills with a required quality improvement project.

The **Six Sigma Green Belt** provides a learning atmosphere packed with interactive discussions, applied exercises, project reviews and Minitab software practice. Learn to utilize DMAIC (Define, Measure, Analyze, Improve, Control)—a disciplined, data-driven methodology for eliminating defects in any process.

Each session focuses on Six Sigma tools to implement projects, conduct data and statistical analysis and reinvent business processes. Implementation of a workplace improvement and project report puts the tools into practice and documents results. Average projects can save a company \$5,000-\$50,000 annually.

\$1,750 per person

Discounted exclusively for WAT Grant Consortium employers & their employees

Register for the series at
www.fvtc.edu/WATRegister_LSS

Materials and lunch are included.
Optional project support available.
