Why do employers hire our grads?

Because they have the necessary skills to do the job! We work closely with area employers to ensure our students are learning the skills needed in today's competitive workplace. In addition to those technical skills, you'll also learn Employability Essentials, the skills and behaviors employers want in the workplace.

Adapt to Change

Anticipate changes and positively respond to them.

Think Critically and Creatively

Apply independent and rigorous reasoning that leads to informed decisions, innovation and personal empowerment.

Work Collaboratively

Work collaboratively with others to complete tasks, solve problems, resolve conflicts, provide information and offer support.

Communicate Effectively and Respectfully

Apply appropriate writing, speaking and listening skills across various settings to engage diverse audiences.

Act Responsibly

Apply ethical standards in both personal and professional behavior.

View our graduate employment survey results:

www.fvtc.edu/GraduateEmployment

Fox Valley Technical College's 94% graduate employment rate doesn't happen by chance. The high employment rates are the result of carefully connecting graduates' skills to employer needs.

Why choose a technical college?

You should consider attending Fox Valley Technical College if:

- You want the most **efficient** and **affordable** option for higher education.
- You prefer small classes where you **build relationships** with your **instructors** and other **students**.
- You want **hands-on learning** using the **latest technology** so you'll be job ready.
- You think you might want to **continue** your education to earn a **four-year bachelor's degree** or more.
- You have an interest that translates into **skills that employers value**. With **200+** programs to choose from, you're sure to find a good fit.
- You want to learn from expert instructors with **real-world work experience**.
- You're looking for a career that's in demand with **high graduate employment** rates of **94%**. Two out of three of the fastest growing occupations require a technical college education.
- You want to **follow your dream**, not someone else's.

Visit Us

There are lots of opportunities to visit Fox Valley Tech. With campuses and regional centers throughout the Fox Valley region, you're sure to find a convenient location that meets your needs.

- Check out our annual Open House in early October, where you can explore the campus and learn about all our program options. Some of our training centers also have preview events throughout the year.
- Come for a structured visit designed to give you an in-depth exploration of a specific program area, as well as a general college overview.

If our pre-scheduled events don't meet your needs, contact us for a personal tour.

Not sure where to begin?

Choosing a college can be exciting and overwhelming. Make sure you have the information you need by asking the right questions. Here are a few to get you started:

1. Which degrees are offered? Is the program you are interested in available?
2. What are the admission requirements?
3. How much will it cost? Are financial aid and scholarships available?
4. Will your credits transfer?
5. Is the college accredited?
6. What is student life like? What types of organizations and activities are offered?
7. What type of employment support is available for graduates?
8. Where are graduates working?

Get the Credit You've Earned

Many students come to Fox Valley Tech with college credits they've already earned, either while in high school or at other colleges and universities. It's also possible to be granted credit for career-related knowledge and skills you've already mastered.

Transferring Credit Into FVTC

If you've already earned credits from other regionally accredited institutions of higher education, you may be able to transfer those credits to Fox Valley Tech and apply them toward your program requirements. To request credit for prior learning, you must submit your official transcripts for review.

Work/Life Experience

It's also possible to be granted credit in an associate degree or technical diploma program for knowledge and skills that directly relate to the program curriculum. The type of assessments are:

- Skills Test
- Industry Certification Review
- Work Experience/Portfolio Review (previous work experience, military training, business and industry training, etc.)

For more information on these and other credit transfer options:
www.fvtc.edu/CreditForPriorLearning

High School Students, Get College Credit Now!

There are a number of ways to earn college credit while you're still in high school. Talk to your high school counselor for more information about the options to put your college career on the fast track.

Counseling & Advising Services

Counseling and advising services are available to assist you with career, academic and personal concerns.

Career counseling assists you in making a career decision by identifying skills, values, interests, and occupational and educational opportunities.

Academic advising assists you in modifying the behaviors or skills necessary to succeed academically.

Personal counseling is available to assist you with concerns which may interfere with academic or personal success.

Group workshops are held throughout the school year for academic and career development.

Disability-Related Services

Fox Valley Technical College is an accessible college community where students with disabilities have an equal opportunity to fully participate in all aspects of the educational environment.

Diversity & Inclusion Services

Our focus is on creating a campus that is inclusive and accepting of differences while celebrating and supporting the uniqueness of all students. Cross-cultural programs and dynamic student support services are available to help enhance your college experience and academic success.

Tutoring & Study Groups

Tutoring assistance and study groups are available to help you stay on track with your academic progress.

Veterans Services

Returning veterans often have specific counseling needs related to re-entry and funding for school. If you're a returning veteran, you can access additional services and resources specific to these unique needs.

Library

A variety of resources such as books, journals, DVDs and other services are available to support your educational and informational needs. The library also offers computers, printers, photocopier, study space with comfy seating and group study rooms.

Bookstore

Purchase your books, supplies and school spirit merchandise in the FVTC Bookstore located on the Appleton campus. Here you'll find a complete selection of new, used, and digital textbooks, or you may purchase your textbooks online. Some textbooks are also available for rental.

Find more information:
www.fvtc.edu/CollegeOverview

Parking

No need to purchase a parking pass. There's plenty of free student parking at all of our campuses.

Bus Service

Ride for free! You can use the Appleton Valley Transit or Oshkosh Go Transit bus service free with a valid FVTC Student ID card, anytime or anywhere the buses run.

Campus Safety

At Fox Valley Tech, we work hard to create a safe, welcoming campus community. You can feel comfortable and secure while you're in class; we're proud of the low crime statistics on our campus.

Student Housing

Tech Village is located two blocks from the Appleton campus and offers apartment style living with private kitchens and bathrooms. Living at Tech Village includes all utilities, study spaces, public computers and recreational areas.

Dining on Campus

Breakfast and lunch are available most days on the Appleton campus with more limited service over the dinner hour. Both the Appleton and Oshkosh Riverside campuses offer a variety of vending machine options so you can grab a quick snack or beverage.

Fitness Center

The Appleton campus offers free access to a Fitness Center that features a variety of exercise equipment, health programs and group fitness classes, as well as shower and locker facilities.

Campus Care Clinic

Assistance is available if you need first-aid or medical care while on campus, including over-the-counter medication for minor illness. In addition, program-related immunizations and medical tests are offered.

Child Care

The Fox Valley Technical College Parent/Child Center is located at the Appleton campus and is open to FVTC students and staff. The center offers safe, high-quality, and affordable child care and is licensed for 96 children, ages 6 weeks through 5 years year-round and 6-9 years old during summer only.

Employment Connections

Employment services begin when you enroll as an FVTC student and continue throughout your employment career. Get help with:

- Job search
- Individual employment advising
- Employment events and job fairs
- On-campus employer interviews

Complete list
of contact
information
on page 87.

Tuition

Fox Valley Technical College offers the most efficient and affordable option for higher education in the Fox Valley. On average, FVTC's tuition costs less than half that of two years of in-state tuition at a four-year public university.

Tuition costs do not include books, program supplies, tools/equipment, uniforms or field trips. Since additional costs vary by program, please check with a program advisor for specific information. If you have available financial aid, those funds may be used for qualifying books, supplies and equipment at the FVTC bookstore.

Payment Options

You can pay your tuition using our free and easy eFAS system (electronic Financial Account for Students), or by cash, check, money order, electronic funds transfer, employer/agency contract or financial aid. Some credit card payments are accepted, however, there is an additional service charge. Tuition and fees are due in full 10 days prior to the class start date unless a payment plan has been arranged.

Annual tuition is based on averages of 2 semesters with 12 credits each. This is tuition only – books, supplies, etc. are extra.

Estimate Your Program Cost

\$157.30 per credit*
 x _____ Credits in your program
 \$ _____ Total tuition
 + _____ Books, supplies & equipment
 \$ _____ Total program cost

*Based on 2020-2021 tuition rates.
 Some programs have additional fees that will increase the cost per credit.
 Online courses, add \$10 per credit.
 Out-of-state residents (except MN), add \$69.45 per credit.
 Tuition rates are subject to change.

For more information about tuition and payment options:
www.fvtc.edu/PayingForCollege

Financial Aid

Financial aid is federal and state assistance to help you pay for college. Aid can consist of grants, loans and/or employment, and is available to students active in an eligible associate degree or technical diploma program.

The actual aid that you can receive depends on your eligibility according to state and federal regulations, the availability of funds and the number of students applying for aid. Our advice is to **apply as soon as possible** for the best results.

To be eligible for financial aid, you must:

- Have financial need
- Apply and be admitted to an eligible academic program
- Be a U.S. citizen or an eligible non-citizen with a valid Social Security number
- Be a Wisconsin resident (for state funds)
- Be registered with the Selective Service (if required)
- Not be in default on a previous student grant or loan
- Maintain satisfactory academic progress
- Have a high school diploma or equivalent
- Not have a drug offense conviction while receiving financial aid

How to apply

To be considered for aid, complete the Free Application for Federal Student Aid (FAFSA) online at www.fafsa.gov. Instant online help is available if you need assistance. Please note that you must be admitted to the college before your financial aid application will be processed.

FAFSA applications are accepted throughout the year, but the sooner you complete your application, the better. Applying by March 1, if you are starting classes in August, will ensure that you're eligible for the most funding options available. A FAFSA application must be submitted for each academic year.

Scholarships

The FVTC Foundation awards over 1000 scholarships each year. Scholarships are funded by private donors, including individuals, organizations and businesses. Best of all, scholarships do not have to be repaid. Students in most associate degree, technical diploma and apprenticeship programs are eligible and encouraged to apply.

You'll need this:
FVTC Title IV School Code 009744

Student Life

Student Life provides programs and services that will enrich your FVTC learning experience. There are many opportunities to build your confidence, leadership and teamwork skills on the Appleton and Oshkosh campuses. This is also your place to pick up your Student ID, rent a locker, make photocopies, or buy stamps and movie tickets.

Student Organizations

There are more than 40 different student organizations to choose from at FVTC. Many are directly related to programs, so you can develop professional connections while meeting other students. In addition, there is a variety of social clubs to join.

Student Leadership Opportunities

If you'd like to expand your experiences at Fox Valley Tech, there are opportunities to gain valuable leadership experience by helping to create policy, effect change, plan events and publish campus-wide communications.

Events

There's always something going on at FVTC! From comedians to musicians, nationally known speakers and leadership seminars. Plus there is a wide range of events like our annual Fall Kick Off and Winter Frostival.

Speaker Series

Each year, Student Life brings in a variety of speakers designed to keep you informed on current topics and provide you with the opportunity to meet these experts.

Trips

If you'd like to get away, there are several day, weekend and extended trips—all at a reduced price! Take a day trip with friends to the Mall of America. Enjoy a weekend with your family at the Tundra Lodge in Green Bay. Student Life also sells reduced price tickets to area attractions and events.

For more information:
www.fvtc.edu/StudentLife

Get involved in student life activities at Fox Valley Tech. There are tons of fun opportunities to build your confidence, leadership and teamwork skills at both the Appleton and Oshkosh campuses.

"FVTC has helped me become more involved in activities and explore what is available to me. Being a college ambassador is very rewarding."

**Trevor H., Alumnus
Criminal Justice-Law Enforcement**

Fox Valley Technical College offers a variety of international study options that prepare you to be successful and competitive in a global workforce. More than that, these experiences just might change your life!

Study Abroad

Make the world your classroom! Travel with FVTC around the world to Jamaica, Ireland, Germany and more! Earn credits as you expand your world view and immerse yourself in the language and culture.

Global Business & World Languages

Distinguish yourself among your classmates by learning another language or studying global topics. Fox Valley Tech offers many options, including Arabic, Mandarin Chinese, Japanese, French, Portuguese, German, Russian, Polish, Spanish and Italian, as well as Spanish-English medical interpretation and global trade.

English Language Learning

English Language Learning (ELL) is a program designed to meet the needs of adults whose native language is not English. Courses focus on reading, writing, speaking and career skills to prepare you for college coursework.

More information on international opportunities:
www.fvtc.edu/Global

International Exchange Club

The International Exchange Club serves as a connection between international and local students to encourage unity and respect on and off campus. Participation in this student club will provide a meaningful and rewarding experience, and you're encouraged and welcome to join!

Program Preparation

There are many resources available to help you meet your educational goals. Whether you need help with academic skills or study habits, these options can give you a solid foundation for success at Fox Valley Tech.

Program Prep Courses

If you need to work on math, sentence skills, and/or reading, Program Prep courses will help build your academic skills to be successful in your program courses. Program Prep courses are based on your individual needs and program selection.

College Success

This elective course is strongly recommended for anyone entering college for the first time. You'll be introduced to study skills, time management techniques, and health-related and relationship-building skills, as well as an introduction to programs, services, policies and procedures at FVTC.

College & Career Success

In this course, you'll examine career options, develop academic and career goals, and learn specific skills to enhance your success in meeting personal and professional goals. Topics include accessing academic resources, determining career fit, and skills like time management, test-taking and goal-setting.

Teaching & Learning Center (TLC)

Need to brush up on some skills? We're here to help. You can work with faculty and peer tutors to improve your math, writing and science skills. Tutoring and study groups are also available. This is a free service for current FVTC students taking credit classes, and help is available without an appointment during posted hours.

More information on preparing for college:

www.fvtc.edu/ProgramPrep

Flexible Learning

Choose from a variety of flexible, time-saving learning options that allow you to take classes when, where and how you want. Fox Valley Tech is college that fits your life!

- **Multiple campus locations** to serve you
- Many classes offered **on campus and online**
- Some programs have **full- or part-time** options
- Choose **day, evening or weekend** classes
- **Accelerated programs** for working adults

Online Learning

Online courses offer you the flexibility to take classes when it's most convenient for you. You can connect from home or anywhere you have access to a computer, reducing the time and expense of traveling to campus. Online courses qualify for the same financial aid as traditional courses.

More information on flexible learning options:

www.fvtc.edu/Flexible

Transferring your FVTC credits to a four-year college has never been easier!

You can earn your associate degree at Fox Valley Tech, then apply your credits toward a bachelor's degree. Starting at FVTC makes completing a bachelor's degree affordable, accessible and convenient. The following colleges and universities have partnered with FVTC to make credit transfer seamless:

Ashford University

Bellevue University

Concordia University Wisconsin

Franklin University

Grand Canyon University

Herzing University

Lakeland University

Marian University

Milwaukee School of Engineering

Northern Michigan University

UW-Green Bay

UW-LaCrosse

UW-Milwaukee

UW-Oshkosh

UW-Platteville

UW-River Falls

UW-Stevens Point

UW-Stout

Viterbo University

1+3 Bachelor's Degree Programs

Need more flexibility? Undecided about your major? Want to transfer to a four-year school? If so, then this certificate might be for you! Our General Studies Transfer Certificates match FVTC credits with specific UW-Green Bay or UW-Oshkosh general education requirements. You can take your first year at Fox Valley Technical College and qualify for sophomore status at either UW-Green Bay or UW-Oshkosh.

For the latest information on credit transfer options with four-year colleges:
www.fvtc.edu/4YearCreditTransfer

World Class Technology

Rapidly changing technology connects us now more than ever. It makes our world smaller yet more complex, and offers students the tools to succeed in today's job market.

Fox Valley Technical College helps you succeed in today's ever-changing world. As industry and technology change, our employer partnerships become even more valuable to students.

In every corner of our campus, from robotics to human patient simulators, learning labs are at work preparing you for the real world.

www.fvtc.edu/Technology

Associate Degree & Technical Diploma Programs

Associate in Applied Science (AAS) degree programs help you prepare for or advance in a particular occupation or field. Most AAS degrees require 60-70 credits and consist of technical studies, general studies and electives. Complete your degree in as little as two years, or attend part-time to fit your schedule. Some or all credits may be applied toward a bachelor's degree program at a four-year college.

Technical Diploma (TD) programs help you prepare for a targeted occupation, typically at the entry level. Credit requirements range from 3-70 credits and many programs offer full- and part-time options. Some credits may be applied to associate degree programs.

Associate Degree & Technical Diploma Programs

Agriculture, Horticulture & Natural Resources

AGRICULTURE

Agribusiness Agronomy Technician 31-006-4

Technical Diploma • 30 Credits • Financial Aid Eligible • Appleton

Time of Day: Day • Full Time and Part Time

Crop production is a high-stakes business that demands a solid foundation in science. With the growing use of precision agriculture applications and regulatory constraints, you'll need more specialized skills. This program will give you a deep understanding of the science and technology of using plants as a source of food. You'll get hands-on experience producing a crop, keeping pests away, making soil more fertile, marketing commodities and managing a farm. Agronomy technicians help farmers get maximum production from the land using the latest technology.

Career Opportunities

Agronomy Service Representative	Agronomy Technician
Certified Custom Applicator	Crop Production Specialist
Crop Scout	

Occupational Specific (30 Credits)		Credits
10-006-102	Integrated Pest Mgmt & Weed Identification	3
10-006-119	Agricultural Crop Production	3
10-006-133	Introduction to Agribusiness	3
10-006-140	Animal Science Fundamentals	3
10-006-143	Introduction to Soils	3
10-006-103	Agricultural Marketing	3
10-006-116	Agribusiness Work Experience	3
10-006-141	Crop Science	3
10-006-150	Agronomy Equipment	3
10-006-155	Nutrient Management Principles	3

Agribusiness Dairy Technician 31-006-5

Technical Diploma • 30 Credits • Financial Aid Eligible • Appleton

Time of Day: Day • Full Time and Part Time

Dairy technicians play an important role in the dairy industry. Today's high-tech livestock and dairy business requires special training and education. Learn to manage a dairy herd with skills like artificial insemination, sire selection, reproduction, herd health, nutrition and ration balancing. You'll also learn records management, commodity marketing and agribusiness management. Hands-on instruction will prepare you for a career in dairy production.

Career Opportunities

Artificial Insemination Technician	Assistant Herdsman
Herd Feeding Technician	Milking Technician
Parlor Manager	

Occupational Specific (30 Credits)		Credits
10-006-113	Dairy/Livestock Nutrition	3
10-006-119	Agricultural Crop Production	3

NATURAL RESOURCES

Natural Resources Technician 10-057-1

Associate Degree • 66 Credits • Financial Aid Eligible • Appleton

Time of Day: Day • Full Time and Part Time

Love the outdoors? Have a passion for improving and protecting the environment? If you want to work with natural resources, this program will prepare you for careers such as a fisheries technician, surveyor, soil and water conservationist, wastewater technician or naturalist. Your professional field training will include equipment operation and field data collection for water quality and wastewater analysis, fisheries, forest management, wildlife management and soil analysis. As a technician, you may assist in managing, improving and protecting forests, rangelands and wildlife habitats. Your training also prepares you to provide technical assistance in the conservation of soil, water and related natural resources in a variety of public or private settings.

Wildland Fire Crew

31-058-1

Technical Diploma • 31 Credits • Financial Aid Eligible • Appleton

Time of Day: Day • Full Time and Part Time

Teamwork is essential in the demanding role of a Wildland Fire Crew member. Your training will include a broad range of topics including ecosystem-based management, emergency response, hazardous materials and wildland fire practices. You'll learn how to use prescribed fire as a tool in wildlife management, forestry or endangered species management. You'll also learn about the proper care and use of equipment, line construction, pump tending and hose use. There will be multiple opportunities for you to gain valuable first-hand experience in live fire settings.

Wildland Firefighter

10-058-1

Associate Degree • 62 Credits • Financial Aid Eligible • Appleton
Time of Day: Day • Full Time and Part Time

Your interest in the outdoors and intense physical activity could lead to a rewarding career protecting life, property and natural resources from wildfires. Gain the skills you need to use planned, controlled fire as a tool in wildlife management, forestry or endangered species management. You'll learn about the ignition and suppression of wildland and prescribed fire, along with the safe operation of equipment. You'll also get plenty of hands-on experience in live fire situations. Your training will cover ecosystem-based management, emergency response, hazardous materials, structural and wildland fire practices. You'll be part of an elite and uniquely qualified group of wildland firefighters.

Aeronautics-Pilot Training 10-402-1

Associate Degree • 60 Credits • Financial Aid Eligible • Oshkosh

Time of Day: Day • Full Time and Part Time

Turn your love of flying into a great career as a charter, regional or major airline pilot. Your training includes FAA approved 141 flight training for Private Pilot, Instrument Rating and Commercial Pilot Multi-Engine, along with all the requirements to be Restricted-ATP eligible, so you'll have flight experience requirements sooner for your first airline job. In addition, you'll gain the knowledge, skills and in-flight experience to qualify for the Commercial Pilot certificate with single-engine, multi-engine and instrument airplane privileges; and Certificated Flight Instructor certificates with single-engine, multi-engine and instrument airplane privileges. You'll also learn about weather, aerodynamics and aircraft systems, and will use the latest flight training equipment, including high-tech, modern aircraft and flight simulators. Enjoy small class sizes and one-on-one instruction tailored to your individual needs. You can start working in the industry before graduating, so you'll have more flight time, certificates and experience than typical four-year program graduates. You'll be ready for an entry-level position as a flight instructor or transporting people, freight or mail.

Aeronautics-Professional Pilot 31-402-1

Technical Diploma • 32 Credits • Financial Aid Eligible • Oshkosh

Time of Day: Day • Full Time and Part Time

If you'd like to build your flight experience for employment in the aviation industry, this diploma program can give you the training and experience you need to get started. Your training includes FAA approved 141 flight training for Private Pilot, Instrument Rating and Commercial Pilot Multi-Engine and Single-Engine, so you'll have flight experience and certifications for your first professional pilot job. You'll be well prepared for a variety of interesting career options. If your goal is to become an airline pilot, this program can offer an alternative pathway to our Aeronautics-Pilot Training associate degree to acquire the necessary flight hours you'll need to be eligible for those positions.

Aircraft Electronics

10-486-1

Associate Degree • 63 Credits • Financial Aid Eligible • Oshkosh
Time of Day: Day • Full Time

If you love airplanes and electronics, this is the degree program for you. As an aircraft electrician, you'll install, inspect, test, repair, and align communication, navigation and flight control systems. You'll learn the theory and practice of avionics and gain the skills necessary for a career as an entry-level avionics technician. Spend more than half of your time in hands-on experience with modern avionic systems and associated test equipment. When you're done, you'll be ready for certification by the National Center for Aerospace & Transportation Technologies. Once you earn the Aircraft Electronics degree, with only one additional year of instruction, you can also complete the Airframe & Powerplant Mechanics program.

Airframe & Powerplant Mechanics

32-486-1

Technical Diploma • 70 Credits • Financial Aid Eligible • Oshkosh
Time of Day: Day and Evening • Full Time

Aviation maintenance technicians play an important role in keeping aircraft safe and ready to fly. This program prepares you for Federal Aviation Administration certification which allows a mechanic to inspect and maintain U.S.-registered civil aircraft. Through hands-on training you'll learn to inspect, troubleshoot, repair, and maintain aircraft structure and aircraft engines. You'll also learn the details of maintenance documentation, recordkeeping and certification, as well as how to read technical drawings and diagrams. This career field requires a high standard of integrity and ethics. Are you ready?

Broadcast Captioning 10-170-1

Associate Degree • 61 Credits • Financial Aid Eligible • Appleton

Time of Day: Day • Full Time

A Lakeshore Technical College program offered at FVTC

You've read the scrolling captions for the hearing-impaired on your TV screen. The person providing instantaneous text of programs is trained in realtime transcription techniques and technology. These skills can also be used to provide CART (Communication Access Realtime Translation) for hearing-impaired students in educational as well as public settings. If you're an excellent listener, enjoy keyboarding, have strong language and communication skills, are committed to accuracy and able to work on deadline, a career in broadcast captioning may be a perfect fit for your talents.

Court Reporting

10-170-2

Associate Degree • 60 Credits • Financial Aid Eligible • Appleton

Time of Day: Day • Full Time

A Lakeshore Technical College Program Offered at FVTC

You've seen high-profile trials with a person keying the testimony into a stenograph machine or read the scrolling captions for the hearing impaired on your TV screen. The person recording the spoken words at speeds ranging from 180 to 225 words a minute is a court reporter. If you're an excellent listener, enjoy keyboarding, have strong language and communications skills, and are committed to accuracy and confidentiality, a career in court reporting may be a perfect fit for you.

For details: www.fvtc.edu/Programs/Shared-Programs

Digital Court Reporter NEW

31-170-1

Technical Diploma • 27 Credits • Financial Aid Eligible • Appleton

Time of Day: Evening • Full time and Part time

Digital court reporters are responsible for recording and transcribing court proceedings. In this program, you'll gain an understanding of the digital recording system maintenance, upkeep and operation. You'll receive training in using recording software and providing litigation support, as well as annotating proceedings with essential case information, performing playback of proceedings and accurately preparing and proofread transcripts. As a digital court reporter, you may also find work in the private sector for attorneys by digitally recording and transcribing depositions.

Paralegal

10-110-1

Associate Degree • 62 Credits • Financial Aid Eligible • Appleton, Online
 Time of Day: Day and Evening • Full Time and Part Time

Become an essential member of the legal office team with a paralegal degree. You'll work under the supervision of lawyers to draft and interpret legal documents; select, compile and use technical legal information; analyze and resolve legal procedural problems; and recognize and manage potential ethical conflicts. Your work will support and prepare attorneys with investigation, interviews and preparation, though paralegals cannot give legal advice or represent clients in court. Courses cover legal research, legal technology and law office management. Industry professionals teach the procedures and the laws you need to function effectively in a law office or a related legal field. The program includes a paralegal internship where you will practice the knowledge and skills you gained in class.

Construction

Construction Management Technology 10-455-4

Associate Degree • 63 Credits • Financial Aid Eligible • Oshkosh

Time of Day: Day • Full Time

Are you ready to move up to project manager or supervisor in residential, commercial or industrial construction? This program will give you the necessary skills to determine the human, physical and financial resources necessary for project activities. You'll learn to control costs, manage documents and supervise others to be an effective project manager. Your training will include work with subcontractors, suppliers and field staff to learn how to provide timely, cost-effective project completion. If you have limited construction background, internships will give you valuable experience. You will be well prepared to assume the duties of a construction project manager.

Career Opportunities

Assistant Construction Manager	Assistant Project Manager/Coordinator
Construction Project Manager	Cost Engineer
Estimator	Expeditor
Field Engineer	Project Engineer

Technical Studies (45 Credits)

		Credits
10-455-101	Site Layout and Construction (CMT)	2
10-455-102	Introduction to Construction Management (CMT)	1
10-455-121	Understanding Construction Drawings (CMT)	1

Construction Safety Technology NEW 10-449-4

Associate Degree • 60 Credits • Financial Aid Eligible • Online • Full Time

A solid background in construction safety will make you a valuable member of the construction site team. Your understanding of OSHA requirements and industry best practices will make the project as efficient as possible through the control of hazards and prevention of injuries. Your training includes a wide variety of industrial and construction safety topics including OSHA Industrial and Manufacturing standards, fall protection, trenching and excavation, material handling, incident investigations and safety management techniques. Graduates will find jobs with general and specialty contractors such as mechanical and electrical contractors.

Career Opportunities

Construction Safety Technician	Safety Engineering Technician

Construction, Residential Building

31-410-7

Technical Diploma • 39 Credits • Financial Aid Eligible • Oshkosh

Time of Day: Day • Full Time

Learn to build or remodel a home from start to finish in this technical diploma program. Gain skills in exterior and interior finishing and frame construction with valuable hands-on experience constructing or remodeling a complete home. You'll learn how to read blueprints and become familiar with residential building codes. You'll also gain experience with the tools, machinery and equipment used in this industry. Expert instructors help you develop the work ethic, teamwork, flexibility and communication skills employers are looking for.

Career Opportunities

Builder	Building Material Salesperson
Carpenter	Expediter
Specialty Subcontractor (framer, roofer, cabinet installer)	

Occupational Specific (36 Credits)

		Credits
10-449-173	Construction Safety with OSHA 10	1
31-409-317	Layout and Sawing Operations	2
31-410-335	Blueprint Reading & Estimating-Construction	2
31-410-354	Exterior Finish Project (RBC)	3
31-410-356	Interior Closure Project (RBC)	3
31-410-330	Exterior Finish Principles (RBC)	2
31-410-331	Interior Closure Principles (RBC)	2
31-410-315	Introduction to AutoCAD-Construction	2
31-410-358	Interior Finish Project, Basic (RBC)	3
31-410-360	Interior Finish Project, Intermediate (RBC)	3
31-410-333	Interior Finish Principles, Basic (RBC)	3
31-410-334	Interior Finish Principles, Intermediate (RBC)	3
31-410-362	Frame Construction Project (RBC)	3
31-410-363	Residential Building Codes and Regulations (RBC)	1
31-410-352	Frame Construction Principles (RBC)	3

Occupational Supportive (3 Credits)

31-890-307	Workplace Reality	2
31-531-301	First Aid/CPR	1

Electricity

31-413-1

Technical Diploma • 33 Credits • Financial Aid Eligible • Appleton

Time of Day: Day • Full Time

Whether you want to be an electrician's helper or pursue an electrical apprenticeship, this program will give you the skills to get started. Gain basic knowledge of electrical code, print reading, installation requirements and electrical equipment. You'll also learn how to test electrical circuits and interpret electrical diagrams and construction drawings. Then you'll put your knowledge and skills to work on an actual residential construction site.

Career Opportunities

Data Communications Installer Helper	Electrical Apprenticeship
Electrical Assembly Worker	Electrical Helper
Electrical Maintenance Assistant	Electrical/Electronics Equipment Installer

Occupational Specific (33 Credits)

		Credits
31-413-301	Introductory Residential Wiring Methods	3
31-413-302	Intermediate Residential Wiring 1	3
31-413-303	Intermediate Residential Wiring 2	3
31-413-304	Advanced Residential Installations	3
31-413-305	Introductory Commercial Wiring Methods	3
31-413-306	Intermediate Commercial Wiring 1	3
31-413-307	Intermediate Commercial Wiring 2	3
31-413-308	Advanced Commercial Installations	3
31-413-309	Introductory Industrial Wiring Methods	3
31-413-310	Intermediate Industrial Wiring	3
31-413-318	Advanced Industrial Installations	3

Pipe Trades Preparation

31-476-1

Technical Diploma • 26 Credits • Financial Aid Eligible • Appleton

Time of Day: Day • Full Time

The Pipe Trades Preparation program provides theoretical and hands-on applications that develop the basic skills and knowledge you need for a pipe trades career in the construction industry. Your training will cover plumbing; pipefitting; sprinkler fitting; blueprint reading; trade-specific mathematics; measurement, layout, welding and cutting; tool use; computer-aided design; computer literacy; first aid; safety and communications. Upon graduation, you'll be eligible to enter a state-approved apprenticeship program coordinated through the Department of Workforce Development, Bureau of Apprenticeship Standards or directly enter the construction industry.

Career Opportunities

Pipefitter Apprentice	Plumber Apprentice
Plumber's Helper	Steamfitter Apprentice

Occupational Specific (22 Credits)

		Credits

Engineering Technologies

ELECTRICAL & ELECTRONICS

Electrical Engineering Technology 10-662-1

Associate Degree • 70 Credits • Financial Aid Eligible • Appleton

Time of Day: Day • Full Time and Part Time

Employers want well-prepared electrical engineering technologists willing and able to take on more responsibility, which allows engineers to function at higher levels and engineering teams to work more efficiently. In this program, you will gain the knowledge and skills to contribute to the team. Your training will include work on electronic circuits that are stand-alone building blocks, as well as embedded controls in products, machines or processes. You will have a variety of potential career paths including product development, manufacturing, testing, quality control, installation, sales, distribution, field service, maintenance and research.

Career Opportunities

Electrical Engineering Technician	Electronics Technician
Engineering Test Technician	Field Service Technician
Product Developer	Security & Surveillance Technician

MANUFACTURING & AUTOMATION

Automated Manufacturing Systems Technology

10-628-3

Associate Degree • 60 Credits • Financial Aid Eligible • Appleton

Time of Day: Day and Evening • Full Time and Part Time

Manufacturers are using machine automation and controls to produce quality products faster and more efficiently. These automated systems also provide critical information to help managers make good business decisions. The ability to produce a product while providing data is an important part of automation. Businesses need skilled people to design and build systems that integrate multiple technologies. With this degree, you could qualify for those high-tech careers. Learn about electronics, computers, control systems, programming, robots, fluid power, sensors and more. You will be able to install, program, design, troubleshoot and repair automated systems.

Career Opportunities

Automation Engineer	Control Cell Supervisor
Design Engineer	Maintenance Technician
Project Manager	Robotic Technician

See page 16 for more information.

Electro-Mechanical Technology 10-620-1

Associate Degree • 60 Credits • Financial Aid Eligible • Appleton, Oshkosh
Time of Day: Day and Evening • Full Time and Part Time

If you're a good problem solver who enjoys working with your hands, this might be a good career choice for you. You will learn to install, troubleshoot and repair complex machinery for business and industry. You'll gain knowledge and skills related to electronics, pneumatics, hydraulics, mechanical devices, industrial computers, sensors, instrumentation equipment and automated systems. You'll also learn to calibrate instruments, write programmable logic controller (PLC) programs, tune closed loop automated systems and design products. Excellent career opportunities await graduates of this degree program.

Career Opportunities

Electro-Mechanical Technician	Engineering Test Lab Technician
Manufacturing/Service Technician	Master Mechanic
Technical Sales Representative	Tester/Assembler

Technical Studies (40 Credits)

Manufacturing Engineering Technology 10-623-3

Associate Degree • 61 Credits • Financial Aid Eligible • Appleton
Time of Day: Day and Evening • Full Time and Part Time

Looking for a fun yet challenging career where you can use hands-on skills to solve problems? The Manufacturing Engineering Technology program will prepare you to work in all types of manufacturing industries designing and improving processes. You'll develop a broad background and gain hands-on experience in many areas including manufacturing processes, automated manufacturing, computer-aided design and manufacturing, fixture and tooling design, and mechanical and electrical system design. Lean production principles, project management, engineering economic analysis and communication skills are also important parts of this program. Get ready for a fulfilling career working with people at all levels to ensure the success of your organization.

Career Opportunities

Engineering Technician	Manufacturing Design Engineer
Manufacturing Engineer	Manufacturing Engineering Technician
Manufacturing Technician	Process Technician

Quality Engineering Technology 10-623-9

Associate Degree • 60 Credits • Financial Aid Eligible • Online
Time of Day: Day and Evening • Full Time and Part Time

Meeting customer expectations is of vital importance to the success of every organization. In the Quality Engineering Technology program, you'll gain the skills necessary to engage in continuous improvement activities as well as traditional quality and inspection duties. You'll learn how to use structured problem-solving methodologies including Six Sigma, 8D and PDSA (Plan-Do-Study-Act) to identify root causes and implement corrective actions. You'll also learn to apply the tools and techniques that support these methodologies. This program allows specialization in either industrial manufacturing where product inspection and measurement takes place or in food and paper processing where laboratory work is more common.

Career Opportunities

Continuous Improvement Specialist	Quality Analyst
Quality Assurance Technician	Quality Control Analyst
Quality Control Technician	Quality Engineer
Quality Inspection Technician	Quality Supervisor
Quality Technician	

Technical Studies (39 Credits) **Credits**

10-623-106	Interpretation of Engineering Drawings	2
10-623-115	Quality Audits	3
10-623-157	Problem Solving Methodologies	3
10-623-195	Lean Tools	2
10-623-137	Applied Statistical Analysis 1	3
10-623-148	Manufacturing Processes	3
10-623-191	Lean Events	3
10-623-132	Project Management	3
10-623-138	Applied Statistical Analysis 2	3
10-623-173	Metrology, Inspection & Testing	3
10-623-155	Transformational Leadership	3
10-623-165	Project Application	3
10-623-166	Supplier Mgmt. & Performance Monitoring	3
10-623-175	Advanced Inspection Techniques	2

General Studies (15 Credits)

10-801-195	Written Communication	3
10-804-107	College Mathematics	3
10-801-196	Oral/Interpersonal Comm	3
10-809-198	Intro to Psychology	3
10-809-195	Economics	3

Suggested Electives (6 Credits)

10-623-101	Engineering Internship - 3 Cr	3
10-196-191	Supervision	3
10-699-116	Developing Product Documentation	3
10-103-120	MS Office Suite, Introduction	2
10-101-145	Spreadsheets, Beginning	1
10-623-194	Introduction to Six Sigma	3

Quality Technician 30-623-6

Technical Diploma • 20 Credits • Financial Aid Eligible • Online
Time of Day: Day and Evening • Full Time and Part Time

Get your foot in the door to a great career working in manufacturing quality. This program will prepare you for inspecting manufactured parts, including the reading of engineering drawings and using common measurement tools. You'll also learn how to implement process improvements and corrective actions.

Career Opportunities

Inspector	Quality Inspector
Quality Responder	Quality Specialist
Quality Technician	

Occupational Specific (14 Credits) **Credits**

10-623-106	Interpretation of Engineering Drawings	2
10-623-148	Manufacturing Processes	3
10-623-173	Metrology, Inspection & Testing	3
10-623-115	Quality Audits	3
10-623-157	Problem Solving Methodologies	3

Occupational Supportive (6 Credits)

MECHANICAL DESIGN

Mechanical CAD Drafting

31-606-3

Technical Diploma • 27 Credits • Financial Aid Eligible • Appleton
Time of Day: Day and Evening • Full Time and Part Time

Use your creativity to solve problems and create new products. Develop the technical skills needed for entry-level work in an engineering department. You will learn to interpret and prepare mechanical drawings of products and machine components to the specifications of the designer and/or the engineering team. You could also investigate other areas of the design process such as strength requirements, material choice, product improvement and cost savings. In addition, you'll learn about manufacturing processes, technical drafting and technical math.

Career Opportunities

AutoCAD Drafter	CAD Technician/Drafter/Operator
CATIA Operator	Design Drafter
Inventor Operator	Mechanical Detailer/Drafter

Occupational Specific (21 Credits)

		Credits
10-606-151	Sketching and the Design Process	1
10-606-152	CAD and Geometric Constructions	1
10-606-153	Multiview Projections	1
10-606-154	Section Views and Auxiliary Views	1

Mechanical Design Technology

10-606-1

Associate Degree • 61 Credits • Financial Aid Eligible • Appleton
Time of Day: Day and Evening • Full Time and Part Time

Develop the skills you need to be a productive team member in an engineering department. Learn how to work with mechanical engineers to prepare and interpret drawings of products and machine components. You'll also learn how to solve design problems relating to shaft type and size, bearings, gears and fasteners. Your work may include investigation of strength requirements, material choice, product improvement or cost savings. Or you may work with engineers creating new consumer products. Either way, you'll have a solid base of technical skills and great career possibilities.

Career Opportunities

Associate Designer	Design Engineer
Drawing Coordinator	Electrical Designer
Engineering Technician	Mechanical/Product Designer

Technical Studies (40 Credits)

		Credits
10-606-151	Sketching and the Design Process	1
10-606-152	CAD and Geometric Constructions	1

SAFETY, ENERGY & ENVIRONMENTAL

Safety Engineering Technology 10-449-3

Associate Degree • 60 Credits • Financial Aid Eligible • Online
 Time of Day: Day and Evening • Full Time and Part Time

A solid background in environmental health and safety can make you a valuable employee in the manufacturing and service industries. Your ability to understand the connection between engineering and safety will help you establish a successful career in both industrial and service settings. Your training includes a wide variety of compliance and inspection topics, along with regulatory interpretation and application, workplace ethics and employee safety. You'll also gain an understanding of engineering and project management fundamentals. With this broad foundation, you'll be well equipped to meet the environmental and safety needs of today's employers.

Career Opportunities

Wind Energy Technology 10-482-1

Associate Degree • 61 Credits • Financial Aid Eligible • Appleton
 Time of Day: Day and Evening
 A Lakeshore Technical College program offered at FVTC

The wind energy industry is the fastest growing segment of renewable energy production. The U.S. and Canadian wind industry is experiencing annual growth of 25%. Employers seek skilled technicians for operation and maintenance activities in wind farms. There is also a demand for advanced technicians with U.S. and international wind turbine manufacturers; these include: installation technicians, quality control technicians, and warranty and commissioning technicians. Operation and maintenance positions generally remain with a given wind farm location; other technicians travel extensively with the construction of new wind farms and repair/retrofitting of wind turbines around the world.

Health Science

Dental Assistant

31-508-1

Technical Diploma • 33 Credits • Financial Aid Eligible • Appleton

Time of Day: Day • Full Time

As a dental assistant, you are an integral member of the dental health team. With this diploma, you'll be ready to give chairside assistance and conduct lab procedures under the direction of the dentist. Learn how to disinfect and sterilize dental instruments, record dental histories and vital signs, and manage dental and medical emergencies. You will also become familiar with dental procedures, equipment and radiographs. Your training will prepare you to perform basic office and laboratory procedures. At the end of this program, you'll be ready for the national certification examination.

Career Opportunities

Dental Insurance Claim Representative

Dental Sales Representative

Dental Treatment Coordinator

Dental Office Manager

Dental Technician

Laboratory Assistant

Occupational Specific (30 Credits)

Dental Hygienist

10-508-1

Associate Degree • 70 Credits • Financial Aid Eligible • Appleton

Time of Day: Day • Full Time

Dental hygienists play an important role in helping patients maintain oral health and prevent oral diseases. You will learn how to inspect the mouth, remove stains and deposits from teeth, apply preventative agents, and prepare clinical and diagnostic tests. You'll also learn how to take dental x-rays and perform many other services related to oral care. You'll get training in counseling patients about nutrition, oral hygiene and dental care, and will gain skills in reviewing medical history, administering screening exams, assessing periodontal health, exposing x-rays and administering local anesthesia. With this training, you'll be prepared for credentialing exams and a great career as a dental hygienist.

Career Opportunity

Registered Dental Hygienist

Health Information Technology 10-530-1

Associate Degree • 61 Credits • Financial Aid Eligible • Appleton
Time of Day: Day • Full Time

Want a career in the dynamic field of healthcare, but without the patient interaction? With this high-demand degree, you deal more with the patient's healthcare information than with patients. You'll learn how to collect, code, manage and maintain the health data necessary for proper reimbursement, statistical and quality purposes. You'll learn how to manage electronic health information in an electronic health record (EHR). You'll train on current coding and chart management software and you'll gain valuable field experience that will be helpful as you seek employment.

Career Opportunities

Cancer Registrar	EHR Implementation Specialist
Health Data Analyst	Health Information Technician
Insurance Claims Analyst	Medical Coder
Patient Information Coordinator	Revenue Cycle Auditor

Technical Studies (43 Credits) Credits

10-501-101	Medical Terminology	3
10-501-107	Digital Literacy for Healthcare	2
10-530-162	Foundations of HIM	3
10-530-182	Human Disease for the Health Professions	3

Medical Assistant 31-509-1

Technical Diploma • 32 Credits • Financial Aid Eligible • Appleton, Oshkosh
Time of Day: Day and Evening • Full Time and Part Time

With this diploma, you become an essential part of the healthcare team. Your role is to take vital signs, assist the physician with examinations and minor office procedures, and administer medications. This career combines business and administrative duties with clinical laboratory functions. You'll learn the necessary office skills as well as specimen collection, basic lab tests and microscopic work. The program includes a supervised practicum experience, allowing you to apply what you've learned in a real world environment.

Career Opportunities

Certified Medical Assistant	Electrocardiogram Technician

Medical Coding Specialist 31-530-2

Technical Diploma • 28 Credits • Financial Aid Eligible • Appleton, Oshkosh
Time of Day: Day and Evening • Full Time and Part Time

Medical coding specialists translate verbal descriptions of disease, injury and procedures into numerical designations. The accurate recording of this information is critical for the reimbursement of healthcare claims, medical statistics and research. You will gain an understanding of the anatomy, signs and symptoms of diseases, and medical procedures. You will also learn how to analyze medical records and assign codes to diagnoses and procedures. Upon completion, you could work in a variety of healthcare settings or for a health insurance company.

Medical Laboratory Technician

10-513-1

Associate Degree • 64 Credits • Financial Aid Eligible • Appleton
Time of Day: Day • Full Time

Get the hands-on skills you need to become a medical laboratory technician. You'll learn to perform routine clinical laboratory testing in hematology, clinical chemistry, immunohematology, microbiology, serology/immunology, coagulation, molecular and other emerging diagnostics as the primary analyst making specimen oriented decisions on predetermined criteria, including a working knowledge of critical values. Communication is vital in this career and you'll obtain the skills needed for interaction with team members, external relations, customer service and patient education. Throughout your training you'll also receive experience in information processing, training others and quality control monitoring.

Neurodiagnostic Technologist

10-525-2

Associate Degree • 60 Credits • Financial Aid Eligible • Appleton
Time of Day: Day • Full Time

The Neurodiagnostic Technologist program prepares you, under the supervision of a physician, to study and record electrical activity in the brain and nervous system for purposes of patient monitoring and supporting diagnoses in collaboration with the electroencephalographer. You'll learn attributes and skills to obtain interpretable recordings of patients' nervous system function. You'll become skilled in the following areas: communicating with patients, family and other healthcare personnel; taking and abstracting histories; applying adequate recording electrodes and using electroencephalography (EEG), evoked potential (EP), nerve conduction studies (NCS) and polysomnography (PSG) techniques; documenting the clinical condition of patients; and understanding and employing the optimal use of EEG, EP, NCS and PSG equipment, and data recording and documentation. This program includes a supervised practicum experience in a clinical setting while you are enrolled in the program.

Nursing Assistant 30-543-1

Technical Diploma • 3 Credits • Not Financial Aid Eligible
Appleton, Chilton, Clintonville, Oshkosh, Waupaca, Wautoma
Time of Day: Day and Evening • Full Time
Also Offered in Accelerated Format

A nursing assistant is an essential member of the healthcare team. This program will help you learn how to provide for the personal care and comfort of people with health problems. You will learn to bathe, dress, feed, mobilize and transport people; obtain pulse and temperature; and report observations and reactions to the health care team. Nursing assistants prepare equipment, take care of the patient's room and keep patient records. In this role, you may assist clients with dementia and rehabilitation needs, and provide restorative care to help them maintain their independence. Upon completion, you'll be ready to take the certification exam. You will have a variety of employment options as a certified nursing assistant (CNA).

Pharmacy Services Management 10-536-1

Associate Degree • 60 Credits • Financial Aid Eligible • Appleton
Full Time • A Lakeshore Technical College program offered at FVTC

This degree prepares individuals to advance their roles as Pharmacy Technicians or to transition into related roles in the workplace. Pharmacy Technicians are able to provide a wide range of duties in the pharmacy, and will enhance their technical skills through additional knowledge in third party payment processing and related reimbursement issues, staff scheduling processes, customer service and enhancing store sales. Marketing, management and business operations are also introduced in this degree. The program culminates in a capstone course that provides the student with the opportunity to apply their education to a real-life situation through increasing store sales, creating efficient operations, improving management practices or enhancing service to patients. Graduates will find positions as Senior Pharmacy Technicians, Assistant Store Managers, Trainers, Pharmacy Technician Managers and many related positions in hospital or retail pharmacies or related organizations.

Human Services

10-520-3

Associate Degree • 61 Credits • Financial Aid Eligible • Appleton
Full Time • A Northcentral Technical College program offered at FVTC.

The Human Services associate degree program will train you to provide education, support, care, advocacy and/or crisis intervention in a human service agency. You'll acquire the skills needed to work with individuals, groups and communities. Key components of this degree include: cultural awareness and an understanding of diverse cultural groups, a responsible attitude, commitment to serve others and effective communication skills. You'll gain occupational experience through Internship 1 and Internship 2 or will engage in the community through Service Learning.

Human Services Assistant

31-520-1

Technical Diploma • 25 Credits • Financial Aid Eligible • Appleton
Full Time • A Northcentral Technical College program offered at FVTC.

The Human Services Assistant technical diploma is ideal if you're looking to assist and provide client services in a wide variety of fields such as psychology, rehabilitation or social work, including support families. This technical diploma will provide you with strong skills in interviewing, communicating, building rapport for trusting relationships and counseling techniques for professions where this is key. Upon graduation, you'll be able to assist clients in identifying and obtaining available benefits and social and community services. You'll also be able to assist social workers with developing, organizing and conducting programs to prevent and resolve problems relevant to substance abuse, human relationships, rehabilitation or dependent care. As an embedded technical diploma, this program ladders fully into the Human Services associate degree program.

SOFTWARE DEVELOPMENT / WEB

Software Developer 10-152-1

Associate Degree • 62 Credits • Financial Aid Eligible • Appleton
Time of Day: Day and Evening • Full Time and Part Time

Are you good at problem solving? Software developers solve problems by developing computer applications for business, such as producing payroll checks, billing customers, tracking of inventory and many other important functions. You'll learn how to analyze business needs; then use that information to design, write and maintain program code to meet that need. Your work may include software and hardware on personal computers or interfacing with systems on the Web. You learn basic computer concepts and terminology and will develop skills in database concepts and applications, data manipulation, problem solving and general language architecture. You'll have opportunities to practice with hands-on exercises, projects and assignments.

MANUFACTURING OPERATIONS

Industrial Engineering Technology 10-623-1

Associate Degree • 60 Credits • Financial Aid Eligible • Online

Time of Day: Day and Evening • Full Time and Part Time

Prepare to be an effective team member and problem solver in any industry. In this program, you'll learn the important tools of industrial engineering like motion and time study and ergonomics. You'll also gain insight into lean production principles and learn how to use structured problem-solving methodologies including Six Sigma, 8D and PDSA (Plan-Do-Study-Act) to identify root causes and implement corrective actions. You'll also learn to apply the tools and techniques that support these methodologies to improve the workplace around you.

Career Opportunities

Industrial Engineer	Manufacturing Engineer
Manufacturing Supervisor	Process Engineer
Process Improvement Specialist	Team Leader

Technical Studies (40 Credits) Credits

10-623-106	Interpretation of Engineering Drawings	2
10-623-157	Problem Solving Methodologies	3
10-623-179	Industrial Engineering Essentials	3
10-623-195	Lean Tools	2
10-623-137	Applied Statistical Analysis	3
10-623-148	Manufacturing Processes	3
10-623-191	Lean Events	3

METAL MACHINING, FABRICATION & WELDING

Machine Tool Technician 32-420-1

Technical Diploma • 61 Credits • Financial Aid Eligible • Appleton

Time of Day: Day and Evening • Full Time and Part Time

Machinists make up the majority of workers in the metalworking trades, and create parts for machinery, transportation, printing and paper companies. Your work will involve setting up the machines, operating the controls and checking the accuracy of the work. You'll learn how to shape metal parts to precise dimensions, and will gain skills using a variety of hand and electric tools including lathes, milling machines, grinders, drill presses and saws.

Welding Technology, Industrial 10-621-1

Associate Degree • 63 Credits • Financial Aid Eligible • Appleton, Oshkosh

Time of Day: Day and Evening • Full Time and Part Time

As an industrial welding technician, you assist engineers, supervisors and journeyworkers in the production of quality welded and metal fabricated parts. You will learn how to provide technical assistance in the planning, development and implementation of a production cycle. Your training includes lots of hands-on training in fabrication and welding techniques, along with a thorough understanding of manufacturing processes. You'll also cover robotic arc welding, electrical safety, material properties and welding codes. This degree program equips you with skills you need for a successful career in industrial welding.

Welding, Production

30-442-1

Technical Diploma • 13 Credits • Not Financial Aid Eligible • Appleton, Oshkosh
Time of Day: Day and Evening • Full Time and Part Time

Production welders are in high demand. You'll find employment opportunities in iron work, construction and manufacturing, and could find yourself working on large amphibious vehicles and fire trucks, or small metal products like lawn mowers and snow throwers. Your training will cover welding various metals and will give you plenty of time to practice your skills. You'll learn to read sketches, blueprints, job shop orders, bills for materials and welding symbols.

Career Opportunities

Welding/Metal Fab Technician

32-621-1

Technical Diploma • 54 Credits • Financial Aid Eligible • Appleton, Oshkosh
Time of Day: Day and Evening • Full Time and Part Time

As a welding and metal fabrication technician, you will be well-prepared to be the next generation of in-demand, highly skilled technicians. In this program, you'll work with a variety of metals and will learn to produce and assemble structural metal products for industrial manufacturing. You will learn how to plan, develop and implement a production cycle from concept and CAD design through all the fabrication stages such as press brake, tube bending, laser and water jet, and final welding stages. Your training will encompass a thorough understanding of typical manufacturing processes. You'll also cover robotic arc welding, electrical safety, material properties and welding codes.

Welding/Metal Fabrication

31-457-1

Technical Diploma • 29 Credits • Financial Aid Eligible • Appleton, Oshkosh
Time of Day: Day and Evening • Full Time and Part Time

Learn the skills you need for a great career in metal fabrication and welding. With this program, you'll work with a variety of metals and will learn to produce and assemble structural metal products for machinery, ovens, tanks, pipes, stacks and parts for buildings. You'll also learn the physical properties of metals and how to read job orders and blueprints. Your training covers how to set up and use equipment to cut, shear and saw, form, roll and bend metals. You will learn about the physical properties of metal and be able to figure the stock allowances for thickness. You'll be ready for a career in a construction firm, equipment manufacturing company or small fabrication shop.

WOOD MANUFACTURING

Wood Manufacturing Technology 31-409-3

Technical Diploma • 37 Credits • Financial Aid Eligible • Oshkosh
 Time of Day: Day • Full Time

New technologies and strong demand for quality wood products have resulted in many employment opportunities in this industry. You will prepare for work in cabinet and furniture making, as well as architectural millwork (windows, doors, mouldings and architectural components). Develop your skills with hand and portable power tools, along with stationary woodworking machinery, including computer numeric control (CNC) equipment. Your training also includes blueprint reading, estimating, AutoCAD and tool maintenance. An emphasis on teamwork, individual initiative and workplace skills will have you job-ready. Blended learning includes a combination of online and lab classes.

INTERIOR DESIGN

Interior Design 10-304-1

Associate Degree • 60 Credits • Financial Aid Eligible • Appleton
Time of Day: Day • Full Time and Part Time

Surroundings have an enormous influence on people's lives. Put your creativity to work in this exciting career field as an interior designer. You will learn how to plan the arrangement of interior space and coordinate the selection and sales of furniture, draperies and other fabrics, floor coverings and interior accessories. You will also learn the skills you need to accurately bid project proposals. You'll learn both residential and commercial design. Through elective courses you can explore options such as kitchen and bath planning, window treatments, wall finishes or flooring. Internships will help you gain the practice and confidence to create design projects for clients.

Interior Design - Kitchen & Bath Design 10-304-3

Associate Degree • 60 Credits • Financial Aid Eligible • Appleton
Time of Day: Day • Full Time and Part Time

Future trends show a need for designers in the kitchen and bath industry. To prepare for this career field, you need creativity, technical skills and business knowledge. Kitchen and bath designers specify cabinetry, fixtures, lighting and mechanicals using hand drawing and computer design software. You will learn how to calculate materials needed, price quotes and negotiate sales. Your training will prepare you with the knowledge and skills you need for drawing and computer design, along with an understanding of construction and mechanicals. You'll also learn how to do accurate estimating and give professional presentations. Graduates are eligible to test for the Associate Kitchen and Bath Designer certification.

EMERGENCY MEDICAL SERVICES (EMS)

Emergency Medical Technician 30-531-3
 Technical Diploma • 5 Credits • Not Financial Aid Eligible • Appleton, Chilton
 Time of Day: Day • Full Time

Knowing you can make a positive difference in the life of a patient is at the core of this rewarding career. As a member of the emergency medical services team, you will learn how to evaluate the nature and extent of various illnesses and injuries, and administer prescribed medical treatment at the site and during transport. You'll learn the knowledge and skills to respond to and treat cardiac arrest and critical medical and trauma situations. After successful completion, you will qualify for the National Registry of Emergency Medical Technicians-Basic certification examinations and will be eligible for Wisconsin licensure.

 10-531-169 Emergency Medical Technician - Basic 5

Emergency Medical Technician – Paramedic 31-531-1
 Technical Diploma • 41 Credits • Financial Aid Eligible • Appleton
 Time of Day: Day • Full Time

This diploma program equips you for advanced life-saving service to your community. Paramedics provide efficient, emergency pre-hospital care and continue care during transport. You'll learn to assess the patient, provide advanced airway management and deal with a variety of medical emergencies. You'll also learn to administer nebulizer treatment and life-saving drugs, and provide care for trauma patients, including infants and children. Your training will also cover legal and ethical issues, effective communications and medical terminology. Lab practice, scenario-based exercises and supervised experiences with actual patients will help you prepare for the National Registry certification examinations and qualify for Wisconsin licensure.

Criminal Justice -**Law Enforcement 720 Academy**

30-504-2

Technical Diploma • 23 Credits • Financial Aid Eligible • Appleton
Time of Day: Day • Full Time

This program is specifically designed for those with a minimum of 60 accredited college-level credits who seek to meet Wisconsin certification requirements as a law enforcement officer. In this role, you'll be responsible for the preservation of law and order in your community. You'll learn numerous skills related to the profession of law enforcement. Your training will also include crime prevention, crime investigation, vehicle patrols and assisting the public. This program includes in-class fitness training and other physical education such as defensive tactics and fire arms training. You'll have plenty of opportunities to practice your skills with hands-on training and scenario-based field simulations.

Career Opportunities

Forensic Science

10-504-4

Associate Degree • 60 Credits • Financial Aid Eligible • Appleton, Online
Time of Day: Day and Evening • Full Time and Part Time

Forensic science is a fascinating field where law enforcement meets scientific investigation. Your training will introduce you to crime scene management, criminal law and constitutional law. You will learn how to identify, document, collect, preserve and analyze physical evidence. Gain experience with biological evidence such as DNA, as well as fingerprints and footwear impressions, trace evidence, tool marks and more. You'll also develop skills for crash scene investigation, and property and evidence management. Then you can enhance your credentials with a concentration in either physical evidence or digital evidence. An internship gives you hands-on, real-world experience to help you prepare for entry-level positions in the forensic science field.

10-412-131	Introduction to Light Duty Diesel Engines	2

GM Express Service Technician **NEW** 30-602-5

Technical Diploma • 13 Credits • Financial Aid Eligible • Appleton

Learn the necessary skills for a high-demand, maintenance-centered career in a General Motors (GM) dealership or AC Delco repair center. With this technical diploma, you'll receive training in braking systems, automotive electrical systems, steering and suspension systems. The coursework will prepare you for the ASE G1 test and earn you GM factory training credit. Your training will include a strong emphasis on being professional in the workplace.

Vehicle Refinishing & Repair Technology 10-405-3

Associate Degree • 63 Credits • Financial Aid Eligible • Appleton
Time of Day: Day and Evening • Full Time and Part Time

This degree prepares you for work in refinishing and repairing many types of vehicles, including emergency vehicles and fire apparatus, as well as work in the aviation and transportation industries. Your hands-on training will give you the skills you need to remove, repair and replace damaged sheet metal, plastic and composite parts. You'll gain a thorough understanding of the unique characteristics of the various material types, and will learn all about color and topcoat application techniques. You'll also learn how to estimate project costs and how to deal professionally with customers. The addition of math, communication and social science courses provides you with a well-rounded education to help advance your career.

TRUCK DRIVING

Truck Driving

30-458-1

Technical Diploma • 9 Credits • Not Financial Aid Eligible •

Appleton, Chilton, Wautoma

Time of Day: Day and Evening • Full Time

There is a strong demand for professional truck drivers, and this program can help you prepare for an exciting career on the road. As a professional truck driver, you are responsible for the safe, efficient delivery of goods between locations. You'll have lots of time behind the wheel learning how to maneuver trucks into tight parking spaces, through narrow alleys and up to loading platforms. You'll develop backing and driving skills through classroom, lab, range and roadway experiences. You'll also cover communications with fellow drivers, dispatchers, shippers, mechanics and law enforcement personnel. In addition, you'll learn how to complete the necessary paperwork and appropriate inspections. You'll have the skills, knowledge and certifications you need to earn your Class A commercial driver's license (CDL) and start your career.

30-458-302	Class A CDL-Behind the Wheel Range	3
30-458-303	Class A CDL-Behind the Wheel Public Road	3

General, Global & Individualized Studies

INDIVIDUALIZED TECHNICAL STUDIES

Individualized Technical Studies

10-825-1

Associate Degree • 60-70 Credits • Financial Aid Eligible • Appleton, Online

Time of Day: Day and Evening • Full Time and Part Time

Looking for a program that meets your unique career goals? Increasingly, employers want workers who have the knowledge and skills to cut across traditional occupational categories. If you have a career objective that can't be met with an existing degree program, then this could be your answer. You'll work with an employer, occupational advisor and a college advisor to identify the desired knowledge and skills. Then you'll put together a program to meet those needs. The Individualized Technical Studies option gives you the flexibility and the outcomes you need for your unique situation.

Making the decision to go back to school to train for a new career is not easy. We can help you find your path:
