Why do employers hire our grads?

Because they have the necessary skills to do the job! We work closely with area employers to ensure our students are learning the skills needed in today's competitive workplace. In addition to those technical skills, you'll also learn Employability Essentials, the skills and behaviors employers want in the workplace.

Adapt to Change

Anticipate changes and positively respond to them.

Think Critically and Creatively

Apply independent and rigorous reasoning that leads to informed decisions, innovation and personal empowerment.

Work Collaboratively

Work collaboratively with others to complete tasks, solve problems, resolve conflicts, provide information and offer support.

Communicate Effectively and Respectfully

Apply appropriate writing, speaking and listening skills across various settings to engage diverse audiences.

Act Responsibly

Apply ethical standards in both personal and professional behavior.

View our graduate employment survey results:

www.fvtc.edu/GraduateEmployment

Fox Valley Technical College's 93% graduate employment rate doesn't happen by chance. The high employment rates are the result of carefully connecting graduates' skills to employer needs.

Why choose a technical college?

You should consider attending Fox Valley Technical College if:

- You want the most **efficient** and **affordable** option for higher education.
- You prefer small classes where you **build relationships** with your **instructors** and other **students**.
- You want **hands-on learning** using the **latest technology** so you'll be job ready.
- You think you might want to **continue** your education to earn a **four-year bachelor's degree** or more.
- You have an interest that translates into **skills that employers value**. With **200+ programs** to choose from, you're sure to find a good fit.
- You want to learn from expert instructors with **real-world work experience**.
- You're looking for a career that's in demand with **high graduate employment rates of 93%**. Two out of three of the fastest growing occupations require a technical college education.
- You want to **follow your dream**, not someone else's.

Visit Us

There are lots of opportunities to visit Fox Valley Tech. With campuses and regional centers throughout the Fox Valley region, you're sure to find a convenient location that meets your needs. If you'd prefer a tour from the comfort of your home, that option is available too.

- Schedule an in-person visit and get a close-up look at a specific program area.
- Take a guided or self-guided virtual tour. Check out a variety of different programs without having to travel.
- Sign up for in-person and online events that will help you explore all Fox Valley Tech has to offer.

Not sure where to begin?

Choosing a college can be exciting and overwhelming. Make sure you have the information you need by asking the right questions. Here are a few to get you started:

1. Which degrees are offered? Is the program you are interested in available?
2. What are the admission requirements?
3. How much will it cost? Are financial aid and scholarships available?
4. Will your credits transfer?
5. Is the college accredited?
6. What is student life like? What types of organizations and activities are offered?
7. What type of employment support is available for graduates?
8. Where are graduates working?

Find the answers:

Get the Credit You've Earned

Many students come to Fox Valley Tech with college credits they've already earned, either while in high school or at other colleges and universities. It's also possible to be granted credit for career-related knowledge and skills you've already mastered.

Transferring Credit Into FVTC

If you've already earned credits from other regionally accredited institutions of higher education, you may be able to transfer those credits to Fox Valley Tech and apply them toward your program requirements. To request credit for prior learning, just submit your official transcripts for review.

Work/Life Experience

It's also possible to be granted credit in an associate degree or technical diploma program for knowledge and skills that directly relate to the program curriculum.

Military Training Credit

Earn college credit for military training and experience. Fox Valley Tech accepts a variety of Army, Navy, Marines or Coast Guard training and experience as credits toward your college degree.

For more information on these and other credit transfer options:
www.fvtc.edu/TransferCredit

High School Students, Get College Credit Now!

There are a number of ways to earn college credit while you're still in high school. Talk to your high school counselor for more information about the options to put your college career on the fast track.

Counseling & Advising Services

Counseling and advising services are available to assist you with career, academic and personal concerns.

Career counseling assists you in making a career decision by identifying skills, values, interests, and occupational and educational opportunities.

Academic advising assists you in modifying the behaviors or skills necessary to succeed academically.

Personal counseling is available to assist you with concerns which may interfere with academic or personal success.

Group workshops are held throughout the school year for academic and career development.

Disability-Related Services

Fox Valley Technical College is an accessible college community where students with disabilities have an equal opportunity to fully participate in all aspects of the educational environment.

Diversity & Inclusion Services

Our focus is on creating a campus that is inclusive and accepting of differences while celebrating and supporting the uniqueness of all students. Cross-cultural programs and dynamic student support services are available to help enhance your college experience and academic success.

Tutoring & Study Groups

Tutoring assistance and study groups are available to help you stay on track with your academic progress.

Find more information:
www.fvtc.edu/CollegeOverview

Veterans Services

Returning veterans often have specific counseling needs related to re-entry and funding for school. If you're a returning veteran, you can access additional services and resources specific to these unique needs.

Library

A variety of resources such as books, journals, DVDs and other services are available to support your educational and informational needs. The library also offers computers, printers, photocopier, study space with comfy seating and group study rooms.

Online Bookstore

The FVTC Online Bookstore provides all your textbook and course material needs, delivered right to your home.

Parking

No need to purchase a parking pass. There's plenty of free student parking at all of our campuses.

Bus Service

Ride for free! You can use the Appleton Valley Transit or Oshkosh Go Transit bus service free with a valid FVTC Student ID card, anytime or anywhere the buses run.

Campus Safety

At Fox Valley Tech, we work hard to create a safe, welcoming campus community. You can feel comfortable and secure while you're in class; we're proud of the low crime statistics on our campus.

Student Housing

Tech Village is located two blocks from the Appleton campus and offers apartment style living with private kitchens and bathrooms. Living at Tech Village includes all utilities, study spaces, public computers and recreational areas.

Dining on Campus

Breakfast and lunch are available most days on the Appleton campus with more limited service over the dinner hour. Both the Appleton and Oshkosh Riverside campuses offer a variety of vending machine options so you can grab a quick snack or beverage.

Complete list
of contact
information
on page 87.

Fitness Center

The Appleton campus offers free access to a Fitness Center that features a variety of exercise equipment, health programs and group fitness classes, as well as shower and locker facilities.

Campus Care Clinic

Assistance is available if you need first-aid or medical care while on campus, including over-the-counter medication for minor illness. In addition, program-related immunizations and medical tests are offered.

Child Care

The Fox Valley Technical College Parent/Child Center is located at the Appleton campus and is open to FVTC students and staff. The center offers safe, high-quality, and affordable child care and is licensed for 96 children, ages 6 weeks through 5 years year-round and 6-9 years old during summer only.

Employment Connections

Employment services begin when you enroll as an FVTC student and continue throughout your employment career. Get help with:

- Job search
- Individual employment advising
- Employment events and job fairs
- On-campus employer interviews

Tuition

Fox Valley Technical College offers the most efficient and affordable option for higher education in the Fox Valley. On average, FVTC's tuition costs less than half that of two years of in-state tuition at a four-year public university.

Tuition costs do not include books, program supplies, tools/equipment, uniforms or field trips. Since additional costs vary by program, please check with a program advisor for specific information. If you have available financial aid, those funds may be used for qualifying books, supplies and equipment at the FVTC bookstore.

Payment Options

You can pay your tuition using our free and easy eFAS system (electronic Financial Account for Students), or by cash, check, money order, electronic funds transfer, employer/agency contract or financial aid. Some credit card payments are accepted, however, there is an additional service charge. Tuition and fees are due in full 10 days prior to the class start date unless a payment plan has been arranged.

Annual tuition is based on averages of 2 semesters with 12 credits each. This is tuition only — books, supplies, etc. are extra.

Estimate Your Program Cost

\$158.20 per credit*

x _____ Credits in your program

\$ _____ Total tuition

+ _____ Books, supplies & equipment

\$ _____ Total program cost

*Based on 2021-2022 tuition rates.

Some programs have additional fees that will increase the cost per credit.

Out-of-state residents (except MN), add \$70.50 per credit.

Tuition rates are subject to change.

For more
information about tuition
and payment options:
www.fvtc.edu/PayingForCollege

Financial Aid

Financial aid is federal and state assistance to help you pay for college. Aid can consist of grants, loans and/or employment, and is available to students active in an eligible associate degree or technical diploma program.

The actual aid that you can receive depends on your eligibility according to state and federal regulations, the availability of funds and the number of students applying for aid. Our advice is to **apply as soon as possible** for the best results.

To be eligible for financial aid, you must:

- Have financial need
- Apply and be admitted to an eligible academic program
- Be a U.S. citizen or an eligible non-citizen with a valid Social Security number
- Be a Wisconsin resident (for state funds)
- Be registered with the Selective Service (if required)
- Not be in default on a previous student grant or loan
- Maintain satisfactory academic progress
- Have a high school diploma or equivalent
- Not have a drug offense conviction while receiving financial aid

How to apply

To be considered for aid, complete the Free Application for Federal Student Aid (FAFSA) online at www.fafsa.gov. Instant online help is available if you need assistance. Please note that you must be admitted to the college before your financial aid application will be processed.

FAFSA applications are accepted throughout the year, but the sooner you complete your application, the better. Applying by March 1, if you are starting classes in August, will ensure that you're eligible for the most funding options available. A FAFSA application must be submitted for each academic year.

Scholarships

The FVTC Foundation awards over 1000 scholarships each year. Scholarships are funded by private donors, including individuals, organizations and businesses. Best of all, scholarships do not have to be repaid. Students in most associate degree, technical diploma and apprenticeship programs are eligible and encouraged to apply.

You'll need this:
FVTC Title IV School Code 009744

Find helpful information
about paying for college:
www.fvtc.edu/PayingForCollege
www.fafsa.gov

Also, check out our
extensive list
of scholarship opportunities:
www.fvtc.edu/Scholarships

Student Life

Student Life provides programs and services that will enrich your FVTC learning experience. There are many opportunities to build your confidence, leadership and teamwork skills on the Appleton and Oshkosh campuses. This is also your place to pick up your Student ID, rent a locker, make photocopies, or buy stamps and movie tickets.

Student Organizations

There are more than 40 different student organizations to choose from at FVTC. Many are directly related to programs, so you can develop professional connections while meeting other students. In addition, there is a variety of social clubs to join.

Student Leadership Opportunities

If you'd like to expand your experiences at Fox Valley Tech, there are opportunities to gain valuable leadership experience by helping to create policy, effect change, plan events and publish campus-wide communications.

Events

There's always something going on at FVTC! From comedians to musicians, nationally known speakers and leadership seminars. Plus there is a wide range of events like our annual Fall Kick Off and Winter Frostival.

Speaker Series

Each year, Student Life brings in a variety of speakers designed to keep you informed on current topics and provide you with the opportunity to meet these experts.

Trips

If you'd like to get away, there are several day, weekend and extended trips — all at a reduced price! Take a day trip with friends to the Mall of America. Enjoy a weekend with your family at the Tundra Lodge in Green Bay. Student Life also sells reduced price tickets to area attractions and events.

Get involved in student life activities at Fox Valley Tech. There are tons of fun opportunities to build your confidence, leadership and teamwork skills at both the Appleton and Oshkosh campuses.

For more
information:
www.fvtc.edu/StudentLife

Fox Valley Technical College offers a variety of international study options that prepare you to be successful and competitive in a global workforce. More than that, these experiences just might change your life!

Study Abroad

Make the world your classroom! Travel with FVTC around the world to Jamaica, Ireland, Germany and more! Earn credits as you expand your world view and immerse yourself in the language and culture.

Global Business & World Languages

Distinguish yourself among your classmates by learning another language or studying global topics. Fox Valley Tech offers many options including: Chinese, French, German, Italian, Japanese, Russian and Spanish.

English Language Learning

English Language Learning (ELL) is a program designed to meet the needs of adults whose native language is not English. Courses focus on reading, writing, speaking and career skills to prepare you for college coursework.

More information on international opportunities:

www.fvtc.edu/Global

International Exchange Club

The International Exchange Club serves as a connection between international and local students to encourage unity and respect on and off campus. Participation in this student club will provide a meaningful and rewarding experience, and you're encouraged and welcome to join!

Program Preparation

There are many resources available to help you meet your educational goals. Whether you need help with academic skills or study habits, these options can give you a solid foundation for success at Fox Valley Tech.

Program Prep Courses

If you need to work on math, sentence skills, and/or reading, Program Prep courses will help build your academic skills to be successful in your program courses. Program Prep courses are based on your individual needs and program selection.

College Success

This elective course is strongly recommended for anyone entering college for the first time. You'll be introduced to study skills, time management techniques, and health-related and relationship-building skills, as well as an introduction to programs, services, policies and procedures at FVTC.

Teaching & Learning Center (TLC)

Need to brush up on some skills? We're here to help. You can work with faculty and peer tutors to improve your math, writing and science skills. Tutoring and study groups are also available. This is a free service for current FVTC students taking credit classes, and help is available without an appointment during posted hours.

More information on preparing for college:

www.fvtc.edu/ProgramPrep

Flexible Learning

Choose from a variety of flexible, time-saving learning options that allow you to take classes when, where and how you want. Fox Valley Tech is college that fits your life!

- **Multiple campus locations** to serve you
- Many classes offered **on campus and online**
- Some programs have **full- or part-time** options
- Choose **day, evening or weekend** classes
- **Accelerated programs** for working adults

Online Learning

Online courses offer you the flexibility to take classes when it's most convenient for you. You can connect from home or anywhere you have access to a computer, reducing the time and expense of traveling to campus. Online courses qualify for the same financial aid as traditional courses.

Virtual Classroom

Virtual Classroom is a live, scheduled online class from your preferred location. Talk with and see your instructor and fellow students in an engaging online environment. It's like being in the classroom, without the travel time.

More information on flexible learning options:

www.fvtc.edu/Flexible

Transferring your FVTC credits to a four-year college has never been easier!

You can earn your associate degree at Fox Valley Tech, then apply your credits toward a bachelor's degree. Starting at FVTC makes completing a bachelor's degree affordable, accessible and convenient. The following colleges and universities have partnered with FVTC to make credit transfer seamless:

Ashford University	Herzing University	Northern Michigan University	UW-Platteville
Bellevue University	Lakeland University	UW-Green Bay	UW-River Falls
Concordia University Wisconsin	Marian University	UW-LaCrosse	UW-Stevens Point
Franklin University	Milwaukee School of Engineering	UW-Milwaukee	UW-Stout
Grand Canyon University		UW-Oshkosh	Viterbo University

1+3 Bachelor's Degree Programs
Need more flexibility? Undecided about your major? Want to transfer to a four-year school? If so, then this certificate might be for you! Our General Studies Transfer Certificates match FVTC credits with specific UW-Green Bay or UW-Oshkosh general education requirements. You can take your first year at Fox Valley Technical College and qualify for sophomore status at either UW-Green Bay or UW-Oshkosh.

For the latest information on credit transfer options with four-year colleges:
www.fvtc.edu/4YearCreditTransfer

World Class Technology

Rapidly changing technology connects us now more than ever. It makes our world smaller yet more complex, and offers students the tools to succeed in today's job market.

Fox Valley Technical College helps you succeed in today's ever-changing world. As industry and technology change, our employer partnerships become even more valuable to students.

In every corner of our campus, from robotics to human patient simulators, learning labs are at work preparing you for the real world.

www.fvtc.edu/Technology

Associate Degree & Technical Diploma Programs

Associate in Applied Science (AAS) degree programs help you prepare for or advance in a particular occupation or field. Most AAS degrees require 60-70 credits and consist of technical studies, general studies and electives. Complete your degree in as little as two years, or attend part-time to fit your schedule. Some or all credits may be applied toward a bachelor's degree program at a four-year college.

Technical Diploma (TD) programs help you prepare for a targeted occupation, typically at the entry level. Credit requirements range from 3-70 credits and many programs offer full- and part-time options. Some credits may be applied to associate degree programs.

*Also offered in accelerated format

AGRICULTURE

Agribusiness Agronomy Technician 31-006-4
Technical Diploma • 30 Credits • Financial Aid Eligible • Appleton
Time of Day: Day • Full Time and Part Time

Crop production is a high-stakes business that demands a solid foundation in science. With the growing use of precision agriculture applications and regulatory constraints, you'll need more specialized skills. This program will give you a deep understanding of the science and technology of using plants as a source of food. You'll get hands-on experience producing a crop, keeping pests away, making soil more fertile, marketing commodities and managing a farm. Agronomy technicians help farmers get maximum production from the land using the latest technology.

Career Opportunities
Agronomy Service Representative Agronomy Technician
Certified Custom Applicator Crop Production Specialist
Crop Scout

Occupational Specific (30 Credits)		Credits

Laboratory Science Technician 10-506-4
Associate Degree • 61 Credits • Financial Aid Eligible • Appleton
Time of Day: Day • Full Time and Part Time

Put on your safety glasses, gloves and lab coat. Laboratories are looking for technicians who are able to assist with basic research and product development. In this program, you can gain the necessary skills for positions in food testing, water, wastewater treatment, environmental and industrial laboratories. You will perform experiments, operate and maintain equipment, make observations and document your results. You will also learn technical writing, laboratory math and project management skills so you'll be well prepared for the workplace.

Career Opportunities
Biotechnology Technician Dairy Laboratory Technician
Environmental Lab Technician Food Laboratory Technician
Industrial Laboratory Technician Research & Development Technician
Water & Wastewater Laboratory Technician

NATURAL RESOURCES

Natural Resources Technician 10-057-1

Associate Degree • 66 Credits • Financial Aid Eligible • Appleton

Time of Day: Day • Full Time and Part Time

Love the outdoors? Have a passion for improving and protecting the environment? If you want to work with natural resources, this program will prepare you for careers such as a fisheries technician, surveyor, soil and water conservationist, wastewater technician or naturalist. Your professional field training will include equipment operation and field data collection for water quality and wastewater analysis, fisheries, forest management, wildlife management and soil analysis. As a technician, you may assist in managing, improving and protecting forests, rangelands and wildlife habitats. Your training also prepares you to provide technical assistance in the conservation of soil, water and related natural resources in a variety of public or private settings.

Career Opportunities

Forestry & Parks Technician	Soil & Water Technician
Survey Technician	Wastewater & Laboratory Technician
Water Quality Specialist	Wildlife & Fisheries Technician

Technical Studies (43 Credits)		Credits
10-057-109	Ecology	2
10-057-140	Plant Identification	1
10-057-183	Exploring Natural Resources	3

Wildland Fire Crew 31-058-1

Technical Diploma • 31 Credits • Financial Aid Eligible • Appleton

Time of Day: Day • Full Time and Part Time

Teamwork is essential in the demanding role of a Wildland Fire Crew member. Your training will include a broad range of topics including ecosystem-based management, emergency response, hazardous materials and wildland fire practices. You'll learn how to use prescribed fire as a tool in wildlife management, forestry or endangered species management. You'll also learn about the proper care and use of equipment, line construction, pump tending and hose use. There will be multiple opportunities for you to gain valuable first-hand experience in live fire settings.

Wildland Firefighter 10-058-1

Associate Degree • 62 Credits • Financial Aid Eligible • Appleton

Time of Day: Day • Full Time and Part Time

Your interest in the outdoors and intense physical activity could lead to a rewarding career protecting life, property and natural resources from wildfires. Gain the skills you need to use planned, controlled fire as a tool in wildlife management, forestry or endangered species management. You'll learn about the ignition and suppression of wildland and prescribed fire, along with the safe operation of equipment. You'll also get plenty of hands-on experience in live fire situations. Your training will cover ecosystem-based management, emergency response, hazardous materials, structural and wildland fire practices. You'll be part of an elite and uniquely qualified group of wildland firefighters.

Aviation

Aeronautics-Pilot Training 10-402-1

Associate Degree • 60 Credits • Financial Aid Eligible • Oshkosh

Time of Day: Day • Full Time and Part Time

Turn your love of flying into a great career as a charter, regional or major airline pilot. Your training includes FAA approved 141 flight training for Private Pilot, Instrument Rating and Commercial Pilot Multi-Engine, along with all the requirements to be Restricted-ATP eligible, so you'll have flight experience requirements sooner for your first airline job. In addition, you'll gain the knowledge, skills and in-flight experience to qualify for the Commercial Pilot certificate with single-engine, multi-engine and instrument airplane privileges; and Certificated Flight Instructor certificates with single-engine, multi-engine and instrument airplane privileges. You'll also learn about weather, aerodynamics and aircraft systems, and will use the latest flight training equipment, including high-tech, modern aircraft and flight simulators. Enjoy small class sizes and one-on-one instruction tailored to your individual needs. You can start working in the industry before graduating, so you'll have more flight time, certificates and experience than typical four-year program graduates. You'll be ready for an entry-level position as a flight instructor or transporting people, freight or mail.

Career Opportunities

Aerial Photography/Tour Pilot	Agricultural Pilot
Airline Pilot	Charter Pilot
Corporate Pilot	Flight Instructor
Law Enforcement Pilot	U.S. Forestry or Contractor Pilot

Aircraft Electronics 10-486-1

Associate Degree • 63 Credits • Financial Aid Eligible • Oshkosh

Time of Day: Day • Full Time

If you love airplanes and electronics, this is the degree program for you. As an aircraft electrician, you'll install, inspect, test, repair, and align communication, navigation and flight control systems. You'll learn the theory and practice of avionics and gain the skills necessary for a career as an entry-level avionics technician. Spend more than half of your time in hands-on experience with modern avionic systems and associated test equipment. When you're done, you'll be ready for certification by the National Center for Aerospace & Transportation Technologies. Once you earn the Aircraft Electronics degree, with only one additional year of instruction, you can also complete the Airframe & Powerplant Mechanics program.

Career Opportunities

Avionics Systems Repair Technician	Avionics Systems Installation Technician
Quality Assurance Technician

Airframe & Powerplant Mechanics 32-486-1

Technical Diploma • 70 Credits • Financial Aid Eligible • Oshkosh

Time of Day: Day • Full Time

Aviation maintenance technicians play an important role in keeping aircraft safe and ready to fly. This program prepares you for Federal Aviation Administration certification which allows a mechanic to inspect and maintain U.S.-registered civil aircraft. Through hands-on training you'll learn to inspect, troubleshoot, repair, and maintain aircraft structure and aircraft engines. You'll also learn the details of maintenance documentation, recordkeeping and certification, as well as how to read technical drawings and diagrams. This career field requires a high standard of integrity and ethics. Are you ready?

Broadcast Captioning 10-170-1
Associate Degree • 61 Credits • Financial Aid Eligible • Appleton
Time of Day: Day • Full Time
A Lakeshore Technical College program offered at FVTC

You've read the scrolling captions for the hearing-impaired on your TV screen. The person providing instantaneous text of programs is trained in realtime transcription techniques and technology. These skills can also be used to provide CART (Communication Access Realtime Translation) for hearing-impaired students in educational as well as public settings. If you're an excellent listener, enjoy keyboarding, have strong language and communication skills, are committed to accuracy and able to work on deadline, a career in broadcast captioning may be a perfect fit for your talents.

Court Reporting 10-170-2
Associate Degree • 60 Credits • Financial Aid Eligible • Appleton
Time of Day: Day • Full Time
A Lakeshore Technical College Program Offered at FVTC

You've seen high-profile trials with a person keying the testimony into a stenograph machine or read the scrolling captions for the hearing impaired on your TV screen. The person recording the spoken words at speeds ranging from 180 to 225 words a minute is a court reporter. If you're an excellent listener, enjoy keyboarding, have strong language and communications skills, and are committed to accuracy and confidentiality, a career in court reporting may be a perfect fit for you.

For details: www.fvtc.edu/Programs/Shared-Programs

Digital Court Reporter 31-170-1
Technical Diploma • 28 Credits • Financial Aid Eligible • Appleton
Time of Day: Evening • Full time and Part time

Digital court reporters are responsible for recording and transcribing court proceedings. In this program, you'll gain an understanding of the digital recording system maintenance, upkeep and operation. You'll receive training in using recording software and providing litigation support, as well as annotating proceedings with essential case information, performing playback of proceedings and accurately preparing and proofread transcripts. As a digital court reporter, you may also find work in the private sector for attorneys by digitally recording and transcribing depositions.

Legal Studies/Paralegal10-110-1

Associate Degree • 62 Credits • Financial Aid Eligible • Appleton, Online
Time of Day: Day and Evening • Full Time and Part Time

Become an essential member of the legal office team with a paralegal degree. You'll work under the supervision of lawyers to draft and interpret legal documents; select, compile and use technical legal information; analyze and resolve legal procedural problems; and recognize and manage potential ethical conflicts. Your work will support and prepare attorneys with investigation, interviews and preparation, though paralegals cannot give legal advice or represent clients in court. Courses cover legal research, legal technology and law office management. Industry professionals teach the procedures and the laws you need to function effectively in a law office or a related legal field. The program includes a paralegal internship where you will practice the knowledge and skills you gained in class.

Career Opportunities

Education & Human Services

COUNSELING & MENTAL HEALTH SERVICES

Human Services 10-520-3
Associate Degree • 61 Credits • Financial Aid Eligible • Appleton
Full Time • A Northcentral Technical College program offered at FVTC.

The Human Services associate degree program will train you to provide education, support, care, advocacy and/or crisis intervention in a human service agency. You'll acquire the skills needed to work with individuals, groups and communities. Key components of this degree include: cultural awareness and an understanding of diverse cultural groups, a responsible attitude, commitment to serve others and effective communication skills. You'll gain occupational experience through Internship 1 and Internship 2 or will engage in the community through Service Learning. Note: this program does not lead directly to State licensure to practice counseling.

For details: www.fvtc.edu/Programs/Shared-Programs

Human Services Assistant 31-520-1
Technical Diploma • 25 Credits • Financial Aid Eligible • Appleton
Full Time • A Northcentral Technical College program offered at FVTC.

The Human Services Assistant technical diploma is ideal if you're looking to assist and provide client services in a wide variety of fields such as psychology, rehabilitation or social work, including support families. This technical diploma will provide you with strong skills in interviewing, communicating, building rapport for trusting relationships and counseling techniques for professions where this is key. Upon graduation, you'll be able to assist clients in identifying and obtaining available benefits and social and community services. You'll also be able to assist social workers with developing, organizing and conducting programs to prevent and resolve problems relevant to substance abuse, human relationships, rehabilitation or dependent care. As an embedded technical diploma, this program ladders fully into the Human Services associate degree program. Note: the Human Services Assistant program does not lead directly to State licensure to practice counseling.

Substance Use Disorder Counseling 10-550-1
Associate Degree • 60 Credits • Financial Aid Eligible • Appleton
Time of Day: Evening • Full Time

Help people break free from the grip of substance abuse. In this rewarding career, you will work with a team of health and social services professionals to provide alcohol and other drug abuse (AODA) treatment services. Through classroom, laboratory and internship experience, you'll develop skills in counseling, diagnosis, treatment planning, group facilitation and crisis management. You'll also learn how to respect clients' rights and understand the complexity of addiction illnesses. This degree prepares you for entry-level work in licensed AODA facilities such as clinics, hospitals and community residential facilities, as well as correctional facilities, employee or student assistance programs, and various community and social service agencies.

Electro-Mechanical Technology 10-620-1

Associate Degree • 60 Credits • Financial Aid Eligible • Appleton, Oshkosh
Time of Day: Day and Evening • Full Time and Part Time

If you're a good problem solver who enjoys working with your hands, this might be a good career choice for you. You will learn to install, troubleshoot and repair complex machinery for business and industry. You'll gain knowledge and skills related to electronics, pneumatics, hydraulics, mechanical devices, industrial computers, sensors, instrumentation equipment and automated systems. You'll also learn to calibrate instruments, write programmable logic controller (PLC) programs, tune closed loop automated systems and design products. Excellent career opportunities await graduates of this degree program.

Career Opportunities

Electro-Mechanical Technician	Engineering Test Lab Technician
Manufacturing/Service Technician	Master Mechanic
Technical Sales Representative	Tester/Assembler

Manufacturing Engineering Technology 10-623-3

Associate Degree • 61 Credits • Financial Aid Eligible • Appleton
Time of Day: Day and Evening • Full Time and Part Time

Looking for a fun yet challenging career where you can use hands-on skills to solve problems? The Manufacturing Engineering Technology program will prepare you to work in all types of manufacturing industries designing and improving processes. You'll develop a broad background and gain hands-on experience in many areas including manufacturing processes, automated manufacturing, computer-aided design and manufacturing, fixture and tooling design, and mechanical and electrical system design. Lean production principles, project management, engineering economic analysis and communication skills are also important parts of this program. Get ready for a fulfilling career working with people at all levels to ensure the success of your organization.

Career Opportunities

Engineering Technician	Manufacturing Design Engineer
Manufacturing Engineer	Manufacturing Engineering Technician
Manufacturing Technician	Process Technician

Technical Studies (44 Credits)

	Credits
10-623-121	Engineering Materials 3
10-623-192	Graphics & Software Applications 4

Quality Engineering Technology 10-623-9

Associate Degree • 60 Credits • Financial Aid Eligible • Online
Time of Day: Day and Evening • Full Time and Part Time

Meeting customer expectations is of vital importance to the success of every organization. In the Quality Engineering Technology program, you'll gain the skills necessary to engage in continuous improvement activities as well as traditional quality and inspection duties. You'll learn how to use structured problem-solving methodologies including Six Sigma, 8D and PDSA (Plan-Do-Study-Act) to identify root causes and implement corrective actions. You'll also learn to apply the tools and techniques that support these methodologies. This program allows specialization in either industrial manufacturing where product inspection and measurement takes place or in food and paper processing where laboratory work is more common.

Career Opportunities

Continuous Improvement Specialist	Quality Analyst
Quality Assurance Technician	Quality Control Analyst
Quality Control Technician	Quality Engineer
Quality Inspection Technician	Quality Supervisor
Quality Technician	

Technical Studies (39 Credits)

	Credits
10-623-106	Interpretation of Engineering Drawings 2
10-623-115	Quality Audits 3
10-623-157	Problem Solving Methodologies 3
10-623-195	Lean Tools 2
10-623-137	Applied Statistical Analysis 1 3
10-623-148	Manufacturing Processes 3
10-623-191	Lean Events 3
10-623-132	Project Management 3
10-623-138	Applied Statistical Analysis 2 3
10-623-173	Metrology, Inspection & Testing 3
10-623-155	Transformational Leadership 3
10-623-165	Project Application 3
10-623-166	Supplier Mgmt. & Performance Monitoring 3
10-623-175	Advanced Inspection Techniques 2

General Studies (15 Credits)

10-801-195	Written Communication 3
10-804-107	College Mathematics 3
10-801-196	Oral/Interpersonal Comm 3
10-809-198	Intro to Psychology 3
10-809-195	Economics 3

Suggested Electives (6 Credits)

10-623-101	Engineering Internship - 3 Cr 3
10-196-191	Supervision 3
10-699-116	Developing Product Documentation 3
10-103-120	MS Office Suite, Introduction 2
10-101-145	Spreadsheets, Beginning 1
10-623-194	Introduction to Six Sigma 3

Quality Technician 30-623-6

Technical Diploma • 20 Credits • Financial Aid Eligible • Online
Time of Day: Day and Evening • Full Time and Part Time

Get your foot in the door to a great career working in manufacturing quality. This program will prepare you for inspecting manufactured parts, including the reading of engineering drawings and using common measurement tools. You'll also learn how to implement process improvements and corrective actions.

Career Opportunities

Inspector	Quality Inspector
Quality Responder	Quality Specialist
Quality Technician	

Occupational Specific (14 Credits)

	Credits
10-623-106	Interpretation of Engineering Drawings 2
10-623-115	Quality Audits 3
10-623-148	Manufacturing Processes 3
10-623-157	Problem Solving Methodologies 3
10-623-173	Metrology, Inspection & Testing 3

Occupational Supportive (6 Credits)

10-801-195	Written Communication 3
10-804-107	College Mathematics 3

MECHANICAL DESIGN

Mechanical CAD Drafting 31-606-3
Technical Diploma • 27 Credits • Financial Aid Eligible • Appleton
Time of Day: Day and Evening • Full Time and Part Time

Use your creativity to solve problems and create new products. Develop the technical skills needed for entry-level work in an engineering department. You will learn to interpret and prepare mechanical drawings of products and machine components to the specifications of the designer and/or the engineering team. You could also investigate other areas of the design process such as strength requirements, material choice, product improvement and cost savings. In addition, you'll learn about manufacturing processes, technical drafting and technical math.

Career Opportunities	
AutoCAD Drafter	CAD Technician/Drafter/Operator
CATIA Operator	Design Drafter
Inventor Operator	Mechanical Detailer/Drafter

Occupational Specific (21 Credits)		Credits
10-606-151	Sketching and the Design Process	1
10-606-152	CAD and Geometric Constructions	1
10-606-153	Multiview Projections	1
10-606-154	Section Views and Auxiliary Views	1
10-606-155	Dimensioning and Tolerancing	1
10-606-156	Threads and Fasteners	1
10-606-157	Gears and Cams	1
10-606-158	Working Drawings	1
10-606-159	Structural and Piping Drafting	1
10-606-160	AutoCAD Mechanical	1
10-804-197	College Algebra and Trigonometry with Applications	5
10-623-119	Manufacturing Processes with Lab	4
Select a total of 2 credits from these options:		
10-606-141	Introduction to SolidWorks	2
10-606-102	CATIA V5 - Basic	2
10-606-139	Introduction to Autodesk Inventor	2

10-801-196	Oral/Interpersonal Comm	3

Mechanical Design Technology 10-606-1
Associate Degree • 61 Credits • Financial Aid Eligible • Appleton
Time of Day: Day and Evening • Full Time and Part Time

Develop the skills you need to be a productive team member in an engineering department. Learn how to work with mechanical engineers to prepare and interpret drawings of products and machine components. You'll also learn how to solve design problems relating to shaft type and size, bearings, gears and fasteners. Your work may include investigation of strength requirements, material choice, product improvement or cost savings. Or you may work with engineers creating new consumer products. Either way, you'll have a solid base of technical skills and great career possibilities.

Career Opportunities	
Associate Designer	Design Engineer
Drawing Coordinator	Electrical Designer
Engineering Technician	Mechanical/Product Designer

Technical Studies (40 Credits)		Credits
10-606-151	Sketching and the Design Process	1
10-606-152	CAD and Geometric Constructions	1
10-606-153	Multiview Projections	1

SAFETY, ENERGY & ENVIRONMENTAL

Safety Engineering Technology 10-449-3
Associate Degree • 60 Credits • Financial Aid Eligible • Online
Time of Day: Day and Evening • Full Time and Part Time

A solid background in environmental health and safety can make you a valuable employee in the manufacturing and service industries. Your ability to understand the connection between engineering and safety will help you establish a successful career in both industrial and service settings. Your training includes a wide variety of compliance and inspection topics, along with regulatory interpretation and application, workplace ethics and employee safety. You'll also gain an understanding of engineering and project management fundamentals. With this broad foundation, you'll be well equipped to meet the environmental and safety needs of today's employers.

Career Opportunities	
Customer Care Specialist	Environmental Health & Safety Technician
Safety Coordinator	Safety Officer/Manager
Safety Trainer	

Technical Studies (38 Credits)		Credits
10-449-102	Regulatory Compliance	3
10-449-162	Fundamentals of Occupational Safety	3
10-449-103	Accident Investigation	3
10-449-185	Construction Compliance	3
10-449-119	Ergonomics	3

10-449-168	Fall Protection	3

Wind Energy Technology 10-482-1
Associate Degree • 61 Credits • Financial Aid Eligible • Appleton
Time of Day: Day and Evening
A Lakeshore Technical College program offered at FVTC

The wind energy industry is the fastest growing segment of renewable energy production. The U.S. and Canadian wind industry is experiencing annual growth of 25%. Employers seek skilled technicians for operation and maintenance activities in wind farms. There is also a demand for advanced technicians with U.S. and international wind turbine manufacturers; these include: installation technicians, quality control technicians, and warranty and commissioning technicians. Operation and maintenance positions generally remain with a given wind farm location; other technicians travel extensively with the construction of new wind farms and repair/retrofitting of wind turbines around the world.

Health Science

Dental Assistant 31-508-1
Technical Diploma • 33 Credits • Financial Aid Eligible • Appleton
Time of Day: Day • Full Time

As a dental assistant, you are an integral member of the dental health team. With this diploma, you'll be ready to give chairside assistance and conduct lab procedures under the direction of the dentist. Learn how to disinfect and sterilize dental instruments, record dental histories and vital signs, and manage dental and medical emergencies. You will also become familiar with dental procedures, equipment and radiographs. Your training will prepare you to perform basic office and laboratory procedures. At the end of this program, you'll be ready for the national certification examination.

Career Opportunities		
Dental Insurance Claim Representative	Dental Office Manager	
Dental Sales Representative	Dental Technician	
Dental Treatment Coordinator	Laboratory Assistant	
Occupational Specific (30 Credits)		Credits
10-508-101	Dental Health Safety	1
10-508-103	Dental Radiography	2
10-508-113	Dental Materials	2
31-508-302	Dental Chairside	5
31-508-304	Dental & General Anatomy	2

10-508-120	Dental Office Management	2
31-508-308	Dental Chairside Advanced	5
31-508-309	Dental Laboratory Procedures	4
31-508-310	Dental Radiography - Advanced	1
31-508-311	Dental Assistant Clinical-Adv	2
Occupational Supportive (3 Credits)		
10-801-196	Oral/Interpersonal Comm	3

Dental Hygienist 10-508-1
Associate Degree • 70 Credits • Financial Aid Eligible • Appleton
Time of Day: Day • Full Time

Dental hygienists play an important role in helping patients maintain oral health and prevent oral diseases. You will learn how to inspect the mouth, remove stains and deposits from teeth, apply preventative agents, and prepare clinical and diagnostic tests. You'll also learn how to take dental x-rays and perform many other services related to oral care. You'll get training in counseling patients about nutrition, oral hygiene and dental care, and will gain skills in reviewing medical history, administering screening exams, assessing periodontal health, exposing x-rays and administering local anesthesia. With this training, you'll be prepared for credentialing exams and a great career as a dental hygienist.

Career Opportunity		
Registered Dental Hygienist		
Technical Studies (43 Credits)		Credits
10-508-102	Oral Anatomy, Embry, Histology	4

Health Information Technology 10-530-1
Associate Degree • 61 Credits • Financial Aid Eligible • Appleton, Online
Time of Day: Day and Evening • Full Time and Part Time

Want a career in the dynamic field of healthcare, but without the patient interaction? With this high-demand degree, you deal more with the patient's healthcare information than with patients. You'll learn how to collect, code, manage and maintain the health data necessary for proper reimbursement, statistical and quality purposes. You'll learn how to manage electronic health information in an electronic health record (EHR). You'll train on current coding and chart management software and you'll gain valuable field experience that will be helpful as you seek employment.

Career Opportunities		
Cancer Registrar	EHR Implementation Specialist	
Health Data Analyst	Health Information Technician	
Insurance Claims Analyst	Medical Coder	
Patient Information Coordinator	Revenue Cycle Auditor	
Technical Studies (43 Credits)		Credits
10-501-101	Medical Terminology	3
10-501-107	Digital Literacy for Healthcare	2
10-530-162	Foundations of HIM	3
10-530-178	Healthcare Law & Ethics	2
10-530-182	Human Disease for the Health Professions	3
10-530-184	CPT Coding	3
10-530-197	ICD Diagnosis Coding	3
10-530-163	Healthcare Stats and Analytics	3
10-530-164	Intro to Health Informatics	3
10-530-199	ICD Procedure Coding	2
10-530-159	Healthcare Revenue Management	3
10-530-161	Health Quality Management	3
10-530-165	Intermediate Coding	3
10-530-166	Health Information Technology Capstone	1

10-801-196	Oral/Interpersonal Comm	3
10-809-198	Intro to Psychology	3
10-809-195	Economics	3

Medical Assistant 31-509-1
Technical Diploma • 32 Credits • Financial Aid Eligible • Appleton, Oshkosh
Time of Day: Day and Evening • Full Time and Part Time

With this diploma, you become an essential part of the healthcare team. Your role is to take vital signs, assist the physician with examinations and minor office procedures, and administer medications. This career combines business and administrative duties with clinical laboratory functions. You'll learn the necessary office skills as well as specimen collection, basic lab tests and microscopic work. The program includes a supervised practicum experience, allowing you to apply what you've learned in a real world environment.

Medical Coding Specialist 31-530-2
Technical Diploma • 28 Credits • Financial Aid Eligible • Appleton, Online
Time of Day: Day and Evening • Full Time and Part Time

Medical coding specialists translate verbal descriptions of disease, injury and procedures into numerical designations. The accurate recording of this information is critical for the reimbursement of healthcare claims, medical statistics and research. You'll gain an understanding of the anatomy, signs and symptoms of diseases, and medical procedures. You'll also learn how to analyze medical records and assign codes to diagnoses and procedures. Upon completion, you could work in a variety of healthcare settings, for a health insurance company or continue on to the Health Information Technology Associate Degree.

Neurodiagnostic Technologist 10-525-2

Associate Degree • 60 Credits • Financial Aid Eligible • Appleton
Time of Day: Day • Full Time

The Neurodiagnostic Technologist program prepares you, under the supervision of a physician, to study and record electrical activity in the brain and nervous system for purposes of patient monitoring and supporting diagnoses in collaboration with the electroencephalographer. You'll learn attributes and skills to obtain interpretable recordings of patients' nervous system function. You'll become skilled in the following areas: communicating with patients, family and other healthcare personnel; taking and abstracting histories; applying adequate recording electrodes and using electroencephalography (EEG), evoked potential (EP), nerve conduction studies (NCS) and polysomnography (PSG) techniques; documenting the clinical condition of patients; and understanding and employing the optimal use of EEG, EP, NCS and PSG equipment, and data recording and documentation. This program includes a supervised practicum experience in a clinical setting while you are enrolled in the program.

Nursing Assistant 30-543-1

Technical Diploma • 3 Credits • Not Financial Aid Eligible
Appleton, Chilton, Clintonville, Oshkosh, Waupaca, Wautoma
Time of Day: Day and Evening • Full Time
Also Offered in Accelerated Format

A nursing assistant is an essential member of the healthcare team. This program will help you learn how to provide for the personal care and comfort of people with health problems. You will learn to bathe, dress, feed, mobilize and transport people; obtain pulse and temperature; and report observations and reactions to the health care team. Nursing assistants prepare equipment, take care of the patient's room and keep patient records. In this role, you may assist clients with dementia and rehabilitation needs, and provide restorative care to help them maintain their independence. Upon completion, you'll be ready to take the certification exam. You will have a variety of employment options as a certified nursing assistant (CNA).

Career Opportunities

Pharmacy Services Management10-536-1

Associate Degree • 60 Credits • Financial Aid Eligible • Appleton
Full Time • A Lakeshore Technical College program offered at FVTC

This degree prepares individuals to advance their roles as Pharmacy Technicians or to transition into related roles in the workplace. Pharmacy Technicians are able to provide a wide range of duties in the pharmacy, and will enhance their technical skills through additional knowledge in third party payment processing and related reimbursement issues, staff scheduling processes, customer service and enhancing store sales. Marketing, management and business operations are also introduced in this degree. The program culminates in a capstone course that provides the student with the opportunity to apply their education to a real-life situation through increasing store sales, creating efficient operations, improving management practices or enhancing service to patients. Graduates will find positions as Senior Pharmacy Technicians, Assistant Store Managers, Trainers, Pharmacy Technician Managers and many related positions in hospital or retail pharmacies or related organizations.

Network Specialist 10-150-2

Associate Degree • 62 Credits • Financial Aid Eligible • Appleton
Time of Day: Day • Full Time and Part Time

Information sharing is an important function in any organization. As a network specialist you implement, maintain and troubleshoot a variety of network equipment. This degree gives you a solid foundation in information technology for today's business environment, and the skills to manage a single local area network or work in a complex telecommunication wide area network environment. You'll learn to install and configure switches, routers and access points. You'll also learn about operating systems, device repair and maintenance, security, cabling, scripting, and much more. You'll build your project management and communication skills, and will be well prepared for today's high tech workplace.

Career Opportunities

Network Administrator	Network Analyst

Network Systems Administration 10-150-5

Associate Degree • 63 Credits • Financial Aid Eligible • Appleton, Online
Time of Day: Day and Evening • Full Time and Part Time

Looking for a great career in the information technology field? Today's organizations demand advanced, secure information sharing technology. Get the training you need to be a skilled network systems administrator. You'll learn how to install, troubleshoot and maintain network operating systems – from a single server to a complex variety of servers. In addition, you'll learn about virtualization technologies, desktop repair and maintenance, scripting, and more. Your hands-on training also includes system administration, project management and operating system security. This degree is the ticket to a promising career.

SOFTWARE DEVELOPMENT/WEB

Software Developer 10-152-1

Associate Degree • 62 Credits • Financial Aid Eligible • Appleton
Time of Day: Day and Evening • Full Time and Part Time

Are you good at problem solving? Software developers solve problems by developing computer applications for business, such as producing payroll checks, billing customers, tracking of inventory and many other important functions. You'll learn how to analyze business needs; then use that information to design, write and maintain program code to meet that need. Your work may include software and hardware on personal computers or interfacing with systems on the Web. You learn basic computer concepts and terminology and will develop skills in database concepts and applications, data manipulation, problem solving and general language architecture. You'll have opportunities to practice with hands-on exercises, projects and assignments.

Career Opportunities

Application Developer	Application Tester
Computer Programmer/Analyst	Database Administrator
Information Systems Analyst

Web Development & Design Specialist 10-152-2
Associate Degree • 60 Credits • Financial Aid Eligible • Appleton, Online
Time of Day: Day and Evening • Full Time and Part Time

The rapidly evolving field of web development has created a need for people with the technical skills to design, develop and support websites. Virtually all businesses require a public website and many develop internal intranets to support various applications. This degree will give you skills to create and maintain professional, high-quality websites. You will learn how to use HTML 5, cascading style sheets (CSS), JavaScript, PHP and ASP.NET. You'll also learn how to develop database-driven websites with dynamic content. Your training includes the development of web graphics and animation techniques. Businesses large and small are calling on people with these skills to help them establish and maintain a website. Get the training you need for this exciting career field.

Manufacturing

INDUSTRIAL MAINTENANCE

Industrial Maintenance Mechanic 31-462-2
Technical Diploma • 26 Credits • Financial Aid Eligible • Appleton
Time of Day: Day and Evening • Full Time and Part Time

This career field offers plenty of opportunities to problem solve and work with your hands. You'll gain a high level of technical skills to prepare you for an entry-level position working with industrial machinery. Your training will include an introduction to electrical motors and safety, control devices and power systems. You'll also learn about blueprints, rigging and lifting, and computer-aided design. You'll get hands-on experience applying what you've learned in the machine shop.

Career Opportunities	
Industrial Maintenance Technician	Industrial Machine Operator

Technical Studies-Journeyworker 10-499-5
Associate Degree • 60 Credits • Financial Aid Eligible • Online
Time of Day: Day and Evening • Full Time and Part Time

If you are currently working on or if you've already completed a trade apprenticeship with at least 400 hours of paid-related instruction (PRI), this degree program will help you build on your experience and add depth to your technical skills. With your Wisconsin Journeyworker Certificate as a solid foundation, you will enhance your career potential with studies in communications, social science, behavioral science and math. You'll begin with 39 credits from your apprenticeship, and add 21 additional credits of general studies. You'll be well prepared for future career growth in your chosen field.

MANUFACTURING OPERATIONS

Industrial Engineering Technology 10-623-1

Associate Degree • 60 Credits • Financial Aid Eligible • Online
Time of Day: Day and Evening • Full Time and Part Time
Prepare to be an effective team member and problem solver in any industry. In this program, you'll learn the important tools of industrial engineering like motion and time study and ergonomics. You'll also gain insight into lean production principles and learn how to use structured problem-solving methodologies including Six Sigma, 8D and PDSA (Plan-Do-Study-Act) to identify root causes and implement corrective actions. You'll also learn to apply the tools and techniques that support these methodologies to improve the workplace around you.

Career Opportunities

METAL MACHINING, FABRICATION & WELDING

Machine Tool Technician 32-420-1

Technical Diploma • 61 Credits • Financial Aid Eligible • Appleton
Time of Day: Day and Evening • Full Time and Part Time

Machinists make up the majority of workers in the metalworking trades, and create parts for machinery, transportation, printing and paper companies. Your work will involve setting up the machines, operating the controls and checking the accuracy of the work. You'll learn how to shape metal parts to precise dimensions, and will gain skills using a variety of hand and electric tools including lathes, milling machines, grinders, drill presses and saws.

Welding Technology, Industrial 10-621-1

Associate Degree • 63 Credits • Financial Aid Eligible • Appleton, Oshkosh
Time of Day: Day and Evening • Full Time and Part Time

As an industrial welding technician, you assist engineers, supervisors and journeymen in the production of quality welded and metal fabricated parts. You will learn how to provide technical assistance in the planning, development and implementation of a production cycle. Your training includes lots of hands-on training in fabrication and welding techniques, along with a thorough understanding of manufacturing processes. You'll also cover robotic arc welding, electrical safety, material properties and welding codes. This degree program equips you with skills you need for a successful career in industrial welding.

Career Opportunities

Welding, Production 30-442-1
Technical Diploma • 13 Credits • Not Financial Aid Eligible • Appleton, Oshkosh
Time of Day: Day and Evening • Full Time and Part Time
Production welders are in high demand. You'll find employment opportunities in ironwork, construction and manufacturing, and could find yourself working on large amphibious vehicles and fire trucks, or small metal products like lawnmowers and snow throwers. Your training will cover welding various metals and will give you plenty of time to practice your skills. You'll learn to read sketches, blueprints, job shop orders, bills for materials and welding symbols.

Career Opportunities	
Aluminum Welder	Production Welder
Robotic Welding Operator	Welder/Fabricator
Occupational Specific (13 Credits)	
10-442-123	GMAW Techniques 1
10-442-124	GMAW Techniques 2
10-442-125	FCAW Techniques
10-442-126	GTAW Techniques
10-442-127	Robotic Arc Welding, Basic
10-621-105	Welding/Metal Fab Intro & Safety

10-621-114	Weld Symbols

Welding/Metal Fab Technician 32-621-1
Technical Diploma • 54 Credits • Financial Aid Eligible • Appleton, Oshkosh
Time of Day: Day and Evening • Full Time and Part Time
As a welding and metal fabrication technician, you will be well-prepared to be the next generation of in-demand, highly skilled technicians. In this program, you'll work with a variety of metals and will learn to produce and assemble structural metal products for industrial manufacturing. You will learn how to plan, develop and implement a production cycle from concept and CAD design through all the fabrication stages such as press brake, tube bending, laser and water jet, and final welding stages. Your training will encompass a thorough understanding of typical manufacturing processes. You'll also cover robotic arc welding, electrical safety, material properties and welding codes.

Career Opportunities	
Brazer	Brazing Machine Setter
Cutter	Fabricators
Metal Worker	Pipe Welder
Press Machine Setter	Sheet Metal Fabricator

10-809-103	Think Critically & Creatively

Welding/Metal Fabrication 31-457-1
Technical Diploma • 29 Credits • Financial Aid Eligible • Appleton, Oshkosh
Time of Day: Day and Evening • Full Time and Part Time
Learn the skills you need for a great career in metal fabrication and welding. With this program, you'll work with a variety of metals and will learn to produce and assemble structural metal products for machinery, ovens, tanks, pipes, stacks and parts for buildings. You'll also learn the physical properties of metals and how to read job orders and blueprints. Your training covers how to set up and use equipment to cut, shear and saw, form, roll and bend metals. You will learn about the physical properties of metal and be able to figure the stock allowances for thickness. You'll be ready for a career in a construction firm, equipment manufacturing company or small fabrication shop.

WOOD MANUFACTURING

Wood Manufacturing Technology 31-409-3
Technical Diploma • 37 Credits • Financial Aid Eligible • Oshkosh
Time of Day: Day • Full Time
New technologies and strong demand for quality wood products have resulted in many employment opportunities in this industry. You will prepare for work in cabinet and furniture making, as well as architectural millwork (windows, doors, mouldings and architectural components). Develop your skills with hand and portable power tools, along with stationary woodworking machinery, including computer numeric control (CNC) equipment. Your training also includes blueprint reading, estimating, AutoCAD and tool maintenance. An emphasis on teamwork, individual initiative and workplace skills will have you job-ready. Blended learning includes a combination of online and lab classes.

Career Opportunities	
Aircraft/Yacht Interior Fabricator	Architectural Millworker
Assistant Project Manager	Cabinet Maker
CNC Router Operator	Custom Cabinet Builder
Furniture Maker	Knife Grinder
Millwork Fabricator	Molder Operator
Woodworker	
Occupational Specific (33 Credits)

INTERIOR DESIGN

Interior Design 10-304-1

Associate Degree • 60 Credits • Financial Aid Eligible • Appleton

Time of Day: Day • Full Time and Part Time

Surroundings have an enormous influence on people’s lives. Put your creativity to work in this exciting career field as an interior designer. You will learn how to plan the arrangement of interior space and coordinate the selection and sales of furniture, draperies and other fabrics, floor coverings and interior accessories. You will also learn the skills you need to accurately bid project proposals. You’ll learn both residential and commercial design. Through elective courses you can explore options such as kitchen and bath planning, window treatments, wall finishes or flooring. Internships will help you gain the practice and confidence to create design projects for clients.

Interior Design - Kitchen & Bath Design 10-304-3

Associate Degree • 60 Credits • Financial Aid Eligible • Appleton

Time of Day: Day • Full Time and Part Time

Future trends show a need for designers in the kitchen and bath industry. To prepare for this career field, you need creativity, technical skills and business knowledge. Kitchen and bath designers specify cabinetry, fixtures, lighting and mechanicals using hand drawing and computer design software. You will learn how to calculate materials needed, price quotes and negotiate sales. Your training will prepare you with the knowledge and skills you need for drawing and computer design, along with an understanding of construction and mechanicals. You’ll also learn how to do accurate estimating and give professional presentations. Graduates are eligible to test for the Associate Kitchen and Bath Designer certification.

EMERGENCY MEDICAL SERVICES (EMS)

Emergency Medical Technician 30-531-3
Technical Diploma • 5 Credits • Not Financial Aid Eligible • Appleton, Chilton
Time of Day: Day • Full Time

Knowing you can make a positive difference in the life of a patient is at the core of this rewarding career. As a member of the emergency medical services team, you will learn how to evaluate the nature and extent of various illnesses and injuries, and administer prescribed medical treatment at the site and during transport. You'll learn the knowledge and skills to respond to and treat cardiac arrest and critical medical and trauma situations. After successful completion, you will qualify for the National Registry of Emergency Medical Technicians-Basic certification examinations and will be eligible for Wisconsin licensure.

Emergency Medical Technician – Paramedic 31-531-1
Technical Diploma • 41 Credits • Financial Aid Eligible • Appleton
Time of Day: Day • Full Time

This diploma program equips you for advanced life-saving service to your community. Paramedics provide efficient, emergency pre-hospital care and continue care during transport. You'll learn to assess the patient, provide advanced airway management and deal with a variety of medical emergencies. You'll also learn to administer nebulizer treatment and life-saving drugs, and provide care for trauma patients, including infants and children. Your training will also cover legal and ethical issues, effective communications and medical terminology. Lab practice, scenario-based exercises and supervised experiences with actual patients will help you prepare for the National Registry certification examinations and qualify for Wisconsin licensure.

Forensic Science 10-504-4
Associate Degree • 60 Credits • Financial Aid Eligible • Appleton, Online
Time of Day: Day and Evening • Full Time and Part Time

Forensic science is a fascinating field where law enforcement meets scientific investigation. Your training will introduce you to crime scene management, criminal law and constitutional law. You will learn how to identify, document, collect, preserve and analyze physical evidence. Gain experience with biological evidence such as DNA, as well as fingerprints and footwear impressions, trace evidence, tool marks and more. You'll also develop skills for crash scene investigation, and property and evidence management. Then you can enhance your credentials with a concentration in either physical evidence or digital evidence. An internship gives you hands-on, real-world experience to help you prepare for entry-level positions in the forensic science field.

TRUCK DRIVING

Truck Driving 30-458-1

Technical Diploma • 9 Credits • Not Financial Aid Eligible • Appleton, Chilton, Clintonville, Wautoma
Time of Day: Day and Evening • Full Time

There is a strong demand for professional truck drivers, and this program can help you prepare for an exciting career on the road. As a professional truck driver, you are responsible for the safe, efficient delivery of goods between locations. You'll have lots of time behind the wheel learning how to maneuver trucks into tight parking spaces, through narrow alleys and up to loading platforms. You'll develop backing and driving skills through classroom, lab, range and roadway experiences. You'll also cover communications with fellow drivers, dispatchers, shippers, mechanics and law enforcement personnel. In addition, you'll learn how to complete the necessary paperwork and appropriate inspections. You'll have the skills, knowledge and certifications you need to earn your Class A commercial driver's license (CDL) and start your career.

Career Opportunities

Company Driver/Owner Operator	Driver Manager
Driver Mentor	Local/Regional/Long Distance Driver
LTL/Truckload Carriers	Recruiting Specialist

30-458-302	Class A CDL-Behind the Wheel Range	3
30-458-303	Class A CDL-Behind the Wheel Public Road	3

General, Global & Individualized Studies

GENERAL

Collegiate Transfer Program - Associate of Arts and Associate of Science Starting Fall 2021

If you'd like to earn an associate in arts (AA) or associate in science (AS) degree and/or intend to transfer to a four-year university, the Collegiate Transfer program would be a good fit. The program provides you with an excellent foundation for continuing in higher education. By completing the Collegiate Transfer degree at Fox Valley Technical College in partnership with Madison College, you'll typically satisfy the first two years of general education requirements for four-year colleges and universities and obtain an educational foundation in a variety of disciplines.

INDIVIDUALIZED TECHNICAL STUDIES

Individualized Technical Studies 10-825-1
Technical Diploma • 60-70 Credits • Financial Aid Eligible • Appleton, Online
Time of Day: Day and Evening • Full Time and Part Time

Looking for a program that meets your unique career goals? Increasingly, employers want workers who have the knowledge and skills to cut across traditional occupational categories. If you have a career objective that can't be met with an existing degree program, then this could be your answer. You'll work with an employer, occupational advisor and a college advisor to identify the desired knowledge and skills. Then you'll put together a program to meet those needs. The Individualized Technical Studies option gives you the flexibility and the outcomes you need for your unique situation.

Making the decision to go back to school to train for a new career is not easy. We can help you find your path:
