General, Global & Individualized Studies Programs
General, Global & Individualized Studies Programs

Associate in Applied Science Degree
Individualized Technical Studies

Looking for a program that meets your unique career goals? Build your own associate degree with the Individualized Technical Studies option. Classes can be combined from two or more FVTC programs to create your own customized degree. You’ll work with an employer, occupational advisor and a college advisor to identify the desired knowledge and skills. Then you’ll put together a program to meet those needs.
