In the Air
Operating as a regional airline in the United States since 1965, Air Wisconsin Airlines performs flying services for United Airlines as United Express throughout the Midwest and East Coast, operating CRJ-200 regional jets. With service to approximately 70 cities throughout North America, we carry an estimated 6 million passengers a year and help unite the world by bringing passengers from their hometowns large and small to hubs that provide them with a gateway to countless travel destinations.

Headquarters
Air Wisconsin Airlines
W6390 Challenger Drive
Suite 203
Appleton, WI 54914

Safety
At Air Wisconsin, the safety of our customers, crews and coworkers matter most. Every employee takes responsibility for promoting safety in all aspects of his/her work. Our safety record is exemplary and we continuously look for ways to enhance our safety programs.

Smart Choices
We take pride in striving to build a stable airline within an industry that’s traditionally filled with highs and lows. Rather than focusing on the fast dollar, we focus on our future. We evaluate the risks and the benefits of every business opportunity and take the time to make decisions that support the long-term interests of Air Wisconsin and its people.

Superior Service
Air Wisconsin employees are courteous, respectful and helpful to both customers and coworkers. By supporting one another through teamwork, we create a company people want to work for and do business with.

Basler Turbo Conversions takes the legendary DC-3 and puts it through the industry's most extensive remanufacturing process. Built into each airframe is the sum of our knowledge and our proprietary processes, along with state-of-the-art components, world-class Pratt & Whitney Canada PT6A-67R engines and Hartzell propellers. The BT-67 modernization includes a complete airframe overhaul, aerodynamic improvements, structural modifications that increase strength and improve performance, and new systems that improve reliability.

Bridger Aerospace is an industry leader in American aerial wildfire fighting. Bridger provides technologically advanced aerial services for wildfire response and suppression operations across the continental United States. Bridger operates best in-class Type 1 Air Attack platforms, pioneering UAV services and will be the leading provider of water scooper aircraft. Bridger is the next generation of Aerial Firefighting in America. Bridger Aerospace has more than 13 years' experience providing Type 1 Air Tactical Group Supervisor (ATGS) Platforms in support of the U.S. Forest Service, the U.S. Department of the Interior, CalFire and various state governments. Bridger is the launch customer for the amphibious fire-fighting aircraft known as the CL-415EA, or "Super-Scoopers." The Super Scoopers will make Bridger the only US provider of Air Attack, Drone and Large Tanker operations to its customers. Bridger currently has contracts with various agencies of the United States federal government, state, county and local governments.

CSA Air, Inc. is an express cargo carrier providing flight and maintenance services primarily in the Upper Midwest.
**Duncan Aviation**  
3701 Aviation Road  
Lincoln, NE 68524

Jennifer Monroe  
Jennifer.Monroe@duncanaviation.com  
(402) 479-1608

Duncan Aviation is the largest family owned maintenance, repair and overhaul (MRO) facility in the world, providing complete acquisition, sales and nose-to-tail support services for business aircraft. We provide premier aircraft services-delivered on time-for a wide variety of business aircraft at our facilities across the United States.

Owned and operated by the Duncan family since our founding in 1956, Duncan Aviation is well-known and respected by operators, manufacturers and other service providers worldwide for our quality, work ethic and expertise.

**Endeavor Air**  
7500 Airline Drive  
Minneapolis, MN

Audrey Garrett  
Audrey.garrett@endeavorair.com  
(612) 266-1422

Endeavor Air, a wholly owned subsidiary of Delta Air Lines, is the world's largest operator of Bombardier CRJ-900 aircraft. Flying as Delta Connection, Endeavor operates 154 regional jets on nearly 800 daily flights to more than 140 destinations in the United States, Canada, and the Caribbean. Headquartered in Minneapolis, Minn., Endeavor has hub operations in Atlanta, Detroit, Minneapolis, and New York City.

Endeavor Air operates the world's largest fleet of 76-seat Bombardier CRJ-900 aircraft, in addition to 69-seat CRJ-700 and 50-seat CRJ-200 regional jets.

Our Mission is to provide a high-quality, cost-competitive, and customer-focused regional jet travel experience for the communities, people, and partners we are proud to serve.

**OUR VALUES:**

- **Honesty** - Always tell the truth
- **Integrity** - Always keep your promises
- **Respect** - Treat others as you would want to be treated
- **Determination** - Never give up
- **Stewardship** - Responsibility to safeguard our customers and our people

**OUR VISION**

To be the premier regional airline by operating at the highest level of safety, strictly adhering to our values, and following our flight plan.
Since 1967 Fastenal has grown as a distributor of industrial and construction supplies from a single branch to approximately 3,000 servicing locations, each providing tailored local inventory and personal service for our customers. As we've expanded across the world, we've retained a core belief in people and their ability to accomplish remarkable things - if given the opportunity. From this philosophy stems an entrepreneurial culture that challenges every employee to run their own business, create their own success, and advance to become company leaders.

As a growth company with a solid financial position, we are committed to training, promoting from within, and creating opportunities for our employees. If you have an entrepreneurial spirit and are looking to make your mark as part of an elite growth company, you won't find a better fit than Fastenal.
Flightstar has been in business as the Fixed Base Operator at Champaign-Urbana’s Willard Airport (KCMI) since December of 1978 and is the only Fixed Base Operator to have ever operated at this airport. Flightstar has grown into a well-respected full-service FBO and MRO facility employing over 120 remarkable people.

Flightstar’s facilities encompass nearly half of the airport grounds. Our 10,000 square foot corporate terminal facility and 127,000 square foot maintenance facilities are state of the art and are easily on par with the finest facilities in the country.

**CAPABILITIES OVERVIEW**
- Bombardier Factory Trained Technicians
- Bombardier Authorized Service Center
- Honeywell ASC TFE-731, HTP 7000, APU
- Class 1, 2, 3, and 4 FAA Repair Station
- Level 2 NDT
- All Phase, Hourly, and Monthly Inspections
- RVSM and ADS-B Compliance
- AOG Services

**SERVICES**
- Hangars (112,000+ sq/ft) up to 32’ tail height
- Aircraft parking (ramp or tie-down)
- Aviation fuel by Avfuel
- Full Service FBO with capabilities up to wide-body aircraft
- Aircraft Maintenance, Avionics, Structural, and Interiors
- Aircraft cleaning / washing / detailing
- Aircraft charter services
- Computerized weather (WSI)
- Passenger terminal and lounge
- Pilot lounge with restrooms / showers / snooze room
- Courtesy transportation, crew cars, rental cars
- Daily scheduled airline service to KORD and KDWF

**AIRLINE SERVICES**
The Flightstar Airline Maintenance Division has been performing line and overnight maintenance for the air carriers serving Champaign (CMI) for well over 20 years. This maintenance division currently operates on a 24/7 365 basis from a dedicated 33,000 sq/ft. hangar facility.
Our team is proud to have completed over 800 Rolls-Royce AE 3007 engine changes and counting. A majority of these events happen in a singular overnight shift, allowing the aircraft to return to serve the following morning.

**Freight Runners Express**
1901 E Layton Ave.
Milwaukee, WI 53235

Although we have two names, we are one company. In 1985, Freight Runners Express® began flying cargo throughout Wisconsin with one single engine airplane. In 1992, we added passenger service using the name Air Charter Express.

**Taryn Mikel**
tmikel@freightrunners.com
(414) 744-5525

Since then FRE/ACE® has grown tremendously, and now operates a fleet of almost 30 aircraft. This longevity and growth has given us the first hand experience necessary to provide safe and reliable flights.

**GE Aviation**
3700 Highway 52 South
Lafayette, IN 47905

GE Aviation is hiring A&P Licensed Assembly & Test Technicians for their new Lafayette Engine Facility located in Lafayette, Indiana. The Lafayette Engine Facility is a purpose-built final assembly site for the groundbreaking new CFM LEAP engine, powering the latest generation of 737 MAX and A320neo airliners from Boeing and Airbus. With more than 12,000 engines on order, LEAP is the fastest-selling airline engine in history.

Mission Aviation Fellowship is a faith-based global mission that uses aviation and technology to reach isolated people around the world. MAF brings life-saving medical care, food, doctors, aid workers, missionaries, disaster relief, community development, and hope to people living in isolation.

Morey Airplane Company is a family run fixed base operator since 1932. We are located just west of Madison. We provide primary and instrument flight lessons, charter services throughout the Midwest in our Cessna 340 and aircraft maintenance specializing in piston aircraft. The position comes with benefits including employer assisted health insurance, 401k with company contributions and employee discounts on flying, parts & supplies.

For over 35 years, Panasonic Avionics Corporation has led the industry in design and implementation of breakthrough In-Flight Entertainment solutions that connect the business and pleasure of flying.

Panasonic Technical Services brings together all of the engineering, technical, logistics, and infrastructure resources to deliver superior in-flight connectivity solution and support. PTS operate the largest IFEC line maintenance and repair network in the world. Our mechanics located at both international airports and the hubs of our aviation customers across the globe providing support that is tailored to meet an airline's individual needs.

Quantum Spatial is the largest, most technically advanced full-service geospatial solutions provider in North America. We apply the power of geospatial solutions to the decisions and processes that matter most to organizations. Our data acquisition division uses a fleet of modified aircraft to platform a diverse array of sensors to acquire the data used for our solutions.
