425 W Davenport Street  
Rhineland, WI 54901

**Deanna Olds**  
deannao@airprofan.com  
(715) 365-3267

Industry Leading Industrial Fan and Blower Manufacturer

AirPro Fan & Blower Company was founded in 2002 as a manufacturer of industrial fans and blowers. Headquartered in Rhineland, Wisconsin, we completed our sixth facility expansion in the last decade in which we added a second location in Rhineland. In September 2016, AirPro transferred 100% ownership rights to employees via an Employee Stock Ownership Plan (ESOP).

AirPro designs and manufactures industrial-duty centrifugal fans and blowers to move process and material-laden air. Our fans and blowers, both pre-engineered and custom, include backward inclined fans, backward curved fans, radial tipped fans, material handling fans, high-pressure blowers, and other centrifugal fans and blowers for industrial fan applications.

AirPro continues to enjoy consistent growth which, to us, is no surprise, because our vision has always been clear: Bring together the best minds in engineering, develop top-quality industrial fans and blowers, and deliver them with unmatched customer service. That's what we would want for ourselves, so we operate according to The Golden Rule, "Do unto others as you would have them do unto you." This service mantra has served AirPro and its customers well. Today, AirPro is proud to be an industry-leading fan and blower manufacturer offering a complete line of air handling products and accessories

Alliance Laundry Systems makes the world cleaner as the premier provider of laundry solutions.

We deliver leading performance through our exceptional employees, unmatched quality and our commitment to innovation.

Alliance leads the world in commercial laundry sales, product range, reach and R&D investment.

No competitor comes close. Our laundry solutions are available under five respected brands, sold and supported by a global network of select distributors. We serve more than 140 countries with a team of more than 2,900 employees.

Our brands include Speed Queen®, UniMac®, Huebsch®, Primus® and IPSO®. Together they

present a full line of commercial washing machines, dryers and ironers (with load capacities

from 12 to 400 pounds, 6 - 180 kgs) - and every essential support service necessary to keep

your operation running at maximum efficiency. You can also enjoy the superior wash and fabric

care of commercial-grade laundry equipment in your home through our legendary Speed

Queen® washers and dryers.

At Alliance we aim to bring you laundry peace-of-mind with an award-winning customer

experience that's unrivaled in our industry.

**Fox Valley Tool & Die Inc.**

PO BOX 380  
Kaukauna, WI 54130

**Peter Uvaas**

pete@fvtd.com  
(920) 766-9455 ext. 140

Fox Valley Tool & Die, Inc. was founded in 1966 with a primary focus in the design and building of compound and progressive dies for the lawn & garden industry. With the introduction of CNC machining in the early 1970's, we have also evolved into a precision job shop that supplies critical machined components for a range of customers, from Fortune 100 companies to local paper mills. With an attitude of uncompromising quality, problem solving and customer service, we have developed a reputation of meeting and exceeding your most difficult manufacturing challenges.

The greatest strength of Fox Valley Tool & Die, Inc. is our people. Yes, we do have an extensive array of state of the art, high tech, computerized machinery, but as anyone who has ever cut chips will tell you, "the machine is only as good as the person behind the wheel!" We have high expectations of our people, as they are active participants in the total process. Personnel on CNC equipment are not just machine operators, but are individual job leaders, who are responsible for development of programs and setup design necessary for completing the task. Project managers and CAD personnel have extensive manufacturing experience that you can rely on for technical assistance. Our people take pride in their jobs, from operating sophisticated equipment to packing the finished parts. Everyone knows what goes out the door is a direct representation of all of us!

Today we employ 180+ people at two 65,000 sq. ft. locations in Kaukauna, Wisconsin, in the heart of the beautiful Fox River Valley. The Main plant provides precision machining, jig grinding, and wire and sinker edm, while Plant 2 houses our stamping, tool & die, fixture/specialty machine, waterjet, and design engineering departments. Fox Valley Tool & Die, Inc. provides outstanding customer service, high quality precision manufacturing, and fair prices.

1907 Laemle Ave.  
Marshfield, WI 54449

**Molly Schecklman**

mollys@innmacspe.com  
(715) 389-1511

Juggling multiple vendors for engineering, machining, fabricating, and assembly is a thing of the past for our customers. Choosing Innovative Machine Specialists as your single source supplier will assure you the confidence of knowing that with one call your manufacturing and machining needs will be met. That is our commitment to you!

Since 1996 Innovative Machine Specialists, Inc. has been driven to help customers attain their manufacturing and machining goals. Today our commitment to reliability, quality and complete customer satisfaction remains our strongest asset.

Many times the words "machine shop" conjures up the definition of a small operation with limited capabilities. Although some may categorize us as a "machine shop" this does not adequately describe what we do on a daily basis.

Within our two facilities, we are able to work with a wide variety of materials including:

- Stainless Steel
- Aluminum
- Carbon Steel
- Alloys
- Tool Steel
- Plastics
- Brass
- Exotic Alloys
- Dairy/Food Grade Specifications

Located in Marshfield, Wisconsin, Innovative Machine Specialists is centrally located to allow for quick delivery of materials and finished projects. No matter how big or small, every customer is unique and valued, and we look forward to hearing from you.

Currently we are ranked second in the "Top 100 Native American Companies in America" and are listed as the 15th largest employer in "The South Carolina Big 50". MAU is a family-owned organization that has been built upon strong principles, and remains dedicated to social responsibility. We have a strong reputation as a trusted partner in managing large projects. The length of our partnerships with Kimberly-Clark and E-Z-GO Textron of 35+ years each is unique in our industry. These and many other partnerships demonstrate MAU's success in understanding manufacturing companies. Furthermore, MAU is proud of the fact that we are a financially sound organization, having been in business for 45 years without an unprofitable year.

Our experience in designing innovative workforce solutions for some of the finest manufacturing organizations in the world, sets us apart from our peers. Companies such as General Electric, Robert Bosch LLC, Century Aluminum, BMW Manufacturing, and many others rely on MAU to execute critical processes and provide unique solutions to improve costs, quality and delivery. We take pride in our ability to meet all commitments made to our clients, regardless of the challenge. In short, we do what we say we will do and our clients can "consider it done" when business is placed in our hands.

MAU (Management, Analysis, and Utilization Inc.) brings manufacturing experience and subject matter expertise in the areas of safety, Lean Six Sigma, and employment law. Through a dedicated staff that includes a Safety & Risk Manager, Lean Development Manager, HR Business Partners and General Counsel, we are better positioned to support our world-class staffing and recruiting systems. Our clients benefit from this through more efficient service and a greater depth of collaboration. Additionally, our ability to understand the local markets in which we operate and become fully invested in the business/manufacturing community is key a part of our strategy and success. Our goal is not to simply provide service to customers, but make a positive impact in the communities where we live and work. We accomplish this through service on business and civic boards, memberships in manufacturing associations, free seminars, workshops, and sponsorships.

Finally, MAU is passionate about hearing the voice of our customers and

**Walker Forge, Inc.**  
250 Spring Street  
Clintonville, WI 54929

**Amy Goerlinger**  
amy.goerlinger@walkerforge.com  
(715) 823-6557

In a challenging market, in a changing world, Walker Forge delivers the confidence customers need.

It starts with consistent quality in closed-die steel forgings from a few ounces to over 75 lbs - the widest range of press sizes in our industry. But it's much more than that.

Some of the world's leading OEMs and 1st tier suppliers in automotive, heavy truck, construction, energy, agriculture and other demanding markets continue to rely on Walker Forge because we provide the capability to meet exacting demands. The capacity to handle high volumes. The value-adds to shorten the supply chain. And the expertise and agility to evolve with changing needs.

The full-service capabilities of Walker Forge would mean little without our skilled, driven people, who are empowered every day to apply their talents and dedication to find every way possible to serve customers better.

We are doers, not wait-and-seers. Our employees are the reason why demanding customers stay with us year after year, and keep counting on us for more and more.
